PROFESSIONAL SUMMARY

Frontend Developer (React.js | Next.js) with 4 years of experience building high-performance web applications using React.js, Next.js, Node.js, and modern JavaScript. Expert in performance optimization, payment gateway integration, REST APIs, and scalable healthcare & sports management platforms. Strong Agile collaborator delivering clean, maintainable code and exceptional user experiences.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Redux, Zustand, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, RESTful APIs, Server-Side Rendering (SSR)

Database: MongoDB, **Tools:** Git, GitHub

PROFESSIONAL EXPERIENCE

Software Developer - Web | Appiness Interactive | April 2024 – Present

MHCP - Manipal Hospital Community Portal

- Developed responsive UI components using React.js, Next.js, Tailwind CSS for 10,000+ users.
- Implemented SSR and dynamic routing in Next.js, improving SEO by 35% and reducing page load time by 50%.
- Engineered REST API integrations with robust error handling for consistent data synchronization and high availability.
- Boosted application performance by 40% through image compression, lazy loading, and code splitting.
- Collaborated with UI/UX designers and product managers in Agile sprints to deliver business-aligned features.

MAHI - Manipal Hospitals Digital Health Platform

- Built scalable front-end features using React.js and Next.js for 50,000+ users with seamless booking experiences.
- Refactored legacy codebase, reducing technical debt and improving maintainability.
- Partnered with backend and UI/UX design teams to deliver responsive, pixel-perfect interfaces, increasing user engagement.

SportStr – Sports Academy Management Platform

- Developed full-stack platform handling 200+ enrolments, scheduling, and real-time analytics for the academies using Next.js and Zustand.
- Collaborated with the Python Django team to implement CRUD operations and automated reporting, reducing manual admin work.
- Restructured UI architecture and optimized API calls to improve scalability and response times.

Associate Professional Software Engineer | DXC Technology | June 2021 – February 2023

- Developed Bill Booking App and Product Management System using React.js and Redux supporting 1,000+ concurrent users.
 - Built reusable UI components, managed state using Redux and Context API, accelerating feature development.
 - Integrated RESTful APIs with full CRUD functionality, optimistic updates, and comprehensive error handling.
 - Designed responsive interfaces using Tailwind CSS and Bootstrap for cross-browser compatibility and mobile responsiveness.
 - Participated in Agile ceremonies, achieving consistent on-time delivery across all sprint commitments.
-

EDUCATION

Bachelor of Engineering in Electrical & Electronics Engineering, Sri Eshwar College of Engineering (2017–2021)

CERTIFICATIONS

- Microsoft Azure Fundamentals
- NPTEL – Programming in Java
