Frontend Developer (React, Next.js) with 3+ years of experience and solid expertise in backend development.

TECHNICAL SKILLS

React, Next.js, JavaScript, TypeScript, NestJS, Node.js, Express.js, PHP, Laravel, MySQL, REST APIs, Tailwind CSS, SASS, Redux, Jest, Stripe SDK, Temporal, Google Cloud Storage

EXPERIENCE

Software Developer – Front-End Lead

April 2025 – Present

Habteq technologies pvt ltd

Kochi, Kerala

- Led development of web applications using React, Next.js, and Laravel, collaborating closely with cross-functional teams to deliver scalable, high-quality solutions.
- Took ownership of feature architecture and implementation, translating client ideas into functional designs and technical plans.
- Mentored junior developers and improved overall code quality through structured reviews and documentation practices.

React Js/Next Js Developer

August 2022 – April 2025

Maple Tech Space Pvt Ltd

Infopark Koratty, Kerala

- Developed and maintained real estate web platforms using Next.js and Tailwind CSS, improving UI responsiveness and site speed.
- Implemented automated CI/CD pipelines and Jest test suites, increasing deployment reliability and reducing manual errors.
- Optimized Core Web Vitals and frontend performance metrics, reducing page load times and creating a smoother, more interactive user experience.

PROJECTS

CRBO – Vehicle Rental Platform | Next.js, TypeScript, Laravel, Stripe SDK, Smartcar API

- Designed and implemented a complete vehicle rental system integrating secure payments, live vehicle data access, and automated booking management.
- Developed backend APIs with Laravel and MySQL to handle billing automation, role management, and analytics modules.

ApBuddy – Automated Accounts Payable Platform | NestJS, Prisma, Temporal Worker, GCS, MySQL

- Designed and implemented vendor registration and document approval workflows, reducing manual intervention and improving reliability.
- Integrated Google Cloud Storage for scalable and secure document management.
- Implemented asynchronous job handling using Temporal workers to boost system scalability and efficiency.

The Canadian Home | Next Js, Typescript, React Query, Zustand, Tailwind CSS, Next UI, Pusher SDK

- Developed a feature-rich real estate platform supporting advanced property listings, integrated chat (WebSocket), map functionality, and filtering tools.
- Built a JSON-driven system enabling rapid creation of 200+ realtor websites, allowing non-technical users to configure and launch sites easily.
- Created a CRM for Real Estate Hub to manage client relationships and property leads more effectively, helping increase overall lead conversions and response rates.

EDUCATION

Indira Gandhi National Open University

Bachelor of Computer Applications

Distance Education

Jan. 2021 – Jan 2024
