Profile Summary

- Senior Business Development Manager with over 7 years of experience in driving New Business Development initiatives. Skilled in Presales, Prospecting, Lead Generation, Cold Calling, RFQ Submission, and Closing the Deals.
- Exposure and working Knowledge of Global Markets (Japan, Singapore, and Malaysia)
- Deep understanding of the Energy and Digital Plant Engineering Service Industry.
- In-depth knowledge and understanding of the sales cycle process and remain focused on customer satisfaction throughout all stages.
- Looking for new opportunities to apply my expertise and drive strategic growth for a dynamic organization.

Education

2015, Full Time

B.Tech/B.E., Jawaharlal Nehru University (JNU),

Work Experience

2017 - Present

Senior Business Development Manager

Creative Synergies

- Manage the Energy and Digital Plant Engineering Business, overseeing process engineering, piping, mechanical, civil, E&I, IoT, and Industry 4.0 services across Japan, Singapore, Malaysia, and the Middle East.
- Prospecting through various methods of communication, including cold calls, email outreach, face-to-face meetings, and LinkedIn, to prospect potential clients.
- Develop both long-term and short-term strategies to support the Executive Vice President and Vice President based in India and Japan, facilitating qualified sales calls and online and face-to-face meetings.
- Efficiently planned and scheduled the Executive Vice President's calendar, coordinating face-to-face meetings during his visit to Japan.
- Prepare and submit comprehensive sales reports highlighting potential sales opportunities and proposed areas of growth for the region.
- Identify, qualified, and nurtured opportunities to sell engineering and digital services.
- Took ownership of the entire sales cycle, from lead generation to closure, ensuring rigorous follow-

ups and managing lead progression.

- Cultivated strong relationships with new and existing accounts, focusing on Energy, Oil and Gas, Water Treatment, Civil Engineering, and Industrial Product Manufacturing companies in Japan and the Asia Pacific regions.
- Effectively educate and manage a team of two members on lead generation, prospecting, target setting, service offerings, and the sales process.
- Conducting weekly review meetings with the team, monitoring progress, and facilitating knowledge-sharing sessions.
- Reporting directly to the Executive Vice President-Japan Head.
