LinkedIn profile: www.linkedin.com/in/alankar-sudarsan-7b0a29363

Short Bio:

I turn ad spend into smart investments. With a strong eye on ROI and ROAS, I craft performance strategies that don't just drive traffic — they drive the *right* traffic. From optimizing CPC to lowering CAC across paid channels, I focus on performance that's both scalable and sustainable. Whether managing six-figure budgets or testing scrappy campaigns, I obsess over the details: audience targeting, funnel strategy, and the creative-performance balance. Every click counts — and I make sure it counts for more.
