Work Experience

Stigen Martech Private Limited, Gurugram Sr. Performance Marketing Executive | Jan 2025 - Present |

- Maintained ROAS from negative to 3x in 3 months for a newly introduced premium idol brand by allocating budget (70% awareness, 30% sales), refining tier-2 targeting, and using festival-specific reels for high-intent retargeting.
 - Increased ROAS from 6x to 12x for a premium golf brand by analyzing 6-month retention gaps, launching testimonial retargeting, introducing bundled offers for first-time buyers, and implementing feed-based PMax campaigns.
 - Helped a legacy saree brand reach ₹80L in monthly sales by splitting budget across WhatsApp and sales campaigns, launching free shipping for NRI audiences, and scaling seasonal creatives after iterative A/B testing.
 - Generated over ₹10M in business for a roofing brand by launching Meta campaigns with 8 regional creatives, targeting state-wise in-market, lookalike, and retargeting audiences, and amplifying conversion via high-frequency YouTube ads.
 - Delivered qualified B2B leads across group insurance, LAP, and mutual fund categories by using LinkedIn/Twitter for high-value professionals, Google Display for competitor placements, and Meta with verified landing pages for scalable retail conversion.
 - Managed ₹80L/month budget for a student-focused creative institute by running awareness (75%) and lead (25%) campaigns across Google, Bing, Meta, LinkedIn, Taboola, Eskimi, Snapchat and Quora to maximize the diversification.
-

Gonzo Digital and Modified Digital, Lucknow | Noida Performance Marketing Executive | Jun 2022 – Dec 2024 |

- Increased ROAS by 4x for a premium tea brand by applying a full-funnel approach and creating lifestyle creatives inspired by non-tea luxury niches to reposition the brand emotionally.
 - Increased ROAS for a U.S. bag brand by recommending a shift from premium-only to all product ranges, and improving AOV using gamified landing page offers.
 - Improved ROAS consistency for a high-ticket fashion brand by restructuring campaign strategy, optimizing product focus, and aligning messaging with pricing psychology to sustain profitable performance.
 - Reduced Google Ads CPL by 45% for a study abroad brand by restructuring ad groups by search intent and layering high-intent audience segments; improved Meta lead quality by targeting parents with high-income job titles.
 - Increased lead volume by 60% for an education foundation by launching segmented campaigns per product, optimizing bids across device/location/audience, and enhancing landing pages with dynamic content.
 - Improved lead quality by 35% for a higher education brand by deploying chatbots and form verification on Google Ads landing pages, while using Meta and LinkedIn lead forms to reduce bounce and capture high-intent prospects.
 - Increased qualified call leads by 70% for a senior living brand by shifting from underperforming Google Call-Only ads to high-intent Meta campaigns, targeting NRI families and eldercare decision-makers with emotional value-driven messaging.
-
