Profile

Highly motivated MSc Bioinformatics graduate with a strong background in IT, equipped with the skills and knowledge necessary to excel in data-driven fields and software development, specializing in computational biology applications. Experienced in utilizing programming languages such as Python, Perl, C, and HTML to build efficient, scalable solutions for biological data analysis and computational tasks. Passionate about integrating IT solutions with biological research to support data-driven decision-making. I am eager to apply my analytical mindset and technical skills to innovative projects.

Internships

- E-mail operations intern Vinam solutions pvt ltd,Calicut
- Client relationship management, and handling HTML language tasks. creating blogs using Neuron,ahref tool, Designing and executing E-mails
- Computer Aided Drug Designing(CADD),Biopharma Solutions,Coimbatore.

April-2023 to June-2023

- Designed and implemented an experiment to test a hypothesis,resulting in the discovery of new chemical compound Work implemented by using python programming.

Courses

Data analysis for Biologists.

February 2022-April-2022

Certifications

- National webinar on NMR Spectroscopy
- Next generation Antibiotics
- Nobel Laureate Materials-A Great History in science
- NPTEL
- E-mail Marketing course from Hubspot Academy, Content Marketing Course from Hubspot Academy,

Academic projects

- Potential Derivatives of olaparib and Enzalutamide for downregulating CD3G mutation Controlling prostate cancer- An insilico approach. Qualitative Phytochemical Analysis.

Achievements

- Secured 10 th Rank in MSc Bioinformatics in MG University Examination.
- NPTEL-IIT Kharagpur-Certification on Data Analysis for Biologists.
- Certification of CADD in Biopharma Solutions,Coimbatore
- In current position awarded get lead conversion star of the last 3 months.
- Awarded Employee of the month october.
