Intelenet Global Services: Flipkart process

Specialist

(28/7/2017 - 21/8/2018)

- **Managed Core Processes at Flipkart:** Led and managed critical processes integral to Flipkart's customer management operations, employing specialized skills and expertise to drive operational excellence and ensure superior service delivery.
- **Customer Query Resolution and Behaviour Analysis:** Demonstrated a keen ability to effectively address customer queries and concerns while conducting in-depth analyses of customer behaviour patterns. Utilized insights gleaned from analyses to inform strategic decision-making and enhance customer satisfaction levels.

- **Handling Market-Level Products:** Successfully managed a diverse array of market-level products within the dynamic e-commerce landscape, leveraging comprehensive knowledge of industry trends and consumer preferences to optimize product offerings and drive sales performance.

- **Return Management Team Responsibilities:**

Orchestrated an Outbound Process: Led an outbound process focused on troubleshooting issues related to mobile and laptop products, adhering rigorously to company policies and procedures.

Comprehensive Customer Assistance: Provided comprehensive assistance to customers, facilitating seamless product replacements and guiding troubleshooting efforts in strict accordance with established guidelines and protocols.

- **E-mail Process Management:**

Proactive Customer Engagement: Played a pivotal role in the email process, proactively engaging with customers to address queries and feedback in a timely, courteous manner, thereby fostering positive customer relationships and bolstering brand loyalty.

- **Holy Grail Process Oversight:**

Holistic Inbound Process Management: Oversaw an inbound process encompassing a wide spectrum of products, including consumer electronics and Softline categories, ensuring prompt and effective resolution of customer inquiries.

Coordination and Task Assignment: Effectively coordinated tasks across cross-functional teams, assigning responsibilities and orchestrating technical visits for product inspections as needed to address customer concerns promptly and efficiently.

- **Outbound Assistance:**

Comprehensive Product Support: Managed outbound processes across all product categories, providing comprehensive support to customers on matters related to product information, refunds, transactional errors, and complaints.

- **Timely Case Resolution:** Ensured timely resolution of assigned cases within predefined Turnaround Time (TAT) metrics, prioritizing customer satisfaction and service quality at all times.

- **Utilization of Smart Assist Software:**

Efficient Operational Management: Leveraged Smart Assist software proficiently to streamline access control procedures and optimize operational workflows, contributing significantly to enhanced process efficiency and overall organizational performance.
