## Professional Experience

---

### Senior Sales Executive

10/2022 - 08/2025

Foundever (Bell Mobility – Canadian Telecom Campaign), India

- Analysed daily operational data from CRM tools (OneView, NM1, Single View, Nuance) to monitor KPIs including conversion rate, AHT, ARPU, upsell %, error rate and order success rate, enabling data-driven improvements in the sales workflow.
- Generated detailed sales performance dashboards using Excel, influencing quarterly sales strategies
- Resolved 95% of customer complaints within SLA standards, enhancing brand reputation and customer loyalty.
- Generated weekly and monthly performance reports for floor managers, summarising funnel performance from inquiries to qualified to sales, error categories and productivity metrics for 17 agents.
- Performed root-cause investigations on order failures and dropped chats/calls, implemented corrective guidelines that reduced data entry errors and improved the order completion rate across the floor.
- Managed CRM pipelines with 100% accuracy, reducing lead leakage and improving follow-ups by 30% and boosting upsell rates by 18%.
- Led quality audits of agent interactions, analysing deviations and shared structured feedback that improved team accuracy and SLA adherence.
- Recognised with multiple performance awards including Bell All Star Agent for excellence in KPI performance and contribution to analytical reporting.

### Quality Controller – Catalog & Operations

12/2021 - 07/2022

Kriya IT (Walmart Toy Catalog Project), India

- Analysed and validated product data (pricing, descriptions, images, attributes) using Excel and structured quality frameworks, ensuring 100% accuracy across the product catalog before upload to Walmart systems.
- Designed Excel dashboards using Pivot Tables and charts to visualise error trends, analyst productivity, rework frequency and quality metrics, enabling leadership to identify high-risk categories and training needs.
- Built rule-based validation checks using Excel formulas to catch recurring inconsistencies, improving data cleanliness and governance and reducing manual review effort.
- Conducted weekly review sessions with analysts, presenting data-driven insights on error categories, root causes and improvement areas, which led to a 40% reduction in recurring mistakes.
- Supported catalogue optimisation by restructuring datasets, standardising naming conventions and improving attribute consistency to streamline integration with Walmart's product taxonomy.

Junior Sales Manager  
India

01/2020 - 07/2020 Srinivasa Traders,

- Conducted market and customer analysis to identify buying patterns, price sensitivity and competitor activity within the cement and steel trading segment.
- Managed sales and accounting records in Excel, tracking invoices, outstanding payments, margins and order volumes to support decision-making for senior management.
- Prepared weekly business performance summaries including sales KPIs, pricing trends and customer demand insights, enabling more competitive negotiation with suppliers and clients.
- Engaged in B2B client meetings, gathered requirements, captured deal details and analysed customer purchasing behaviour to support sales forecasting and pipeline visibility.
- Coordinated with warehouse and logistics partners to ensure smooth order fulfilment and timely delivery while monitoring SLA adherence and customer expectations.

Education

---

Bachelor of Business Administration (Finance), Dr. M.G.R. Educational and Research Institute 2021

Project

---

Retail Sales Performance Analysis – Data Analytics Project  
08/2025

- Used SQL and Excel to clean, transform and segment sales datasets across regions and categories.
- Built interactive Power BI dashboards visualising revenue, profitability, top SKUs, regional performance and seasonal trends.
- Delivered actionable insights to improve category allocation, stock prioritisation and pricing decisions.
