PROFESSIONAL SUMMARY

Senior Backend Developer with 8+ years of experience designing and building scalable REST APIs, microservices, and high-performance server-side applications across e-commerce, CRM, ERP, fintech, and social-media platforms. Proven expertise in Laravel, Node.js (NestJS), Python (Django REST Framework), PostgreSQL, MongoDB, Redis, Apache Kafka, AWS Lambda, and Docker. Adept at query optimization, microservice architecture, and shipping production code in fast-paced Agile teams. Seeking a senior engineering role to contribute strong technical expertise and drive business-impacting engineering solutions.

TECHNICAL SKILLS

Languages & Frameworks: PHP, Laravel, Node.js, NestJS, Express, React.js, Next.js, Python, Django REST Framework, JavaScript, TypeScript

Cloud & Serverless: AWS Lambda, Azure Blob Storage, Azure Maps, Firebase, Docker

Databases & Caching: PostgreSQL, MySQL, MongoDB, Redis

Messaging & Real-Time: Apache Kafka, WebSockets, Event-driven architecture

DevOps & Tools: Git, Docker, Linux, Postman

Identity & Auth: Ory Kratos, OAuth2, JWT

Architecture & Practices: REST APIs, Microservices, Scalable backend design, Query optimization, Agile/Scrum, Code Review

WORK EXPERIENCE

Senior Software Engineer

Oct 2022 – Present

IBIL Solutions — Technopark, Trivandrum

- Lead backend development for 3+ products (CRM, image-translation, order-management) using NestJS, Laravel, and Python, serving 10K+ daily active users.
- Designed and shipped 50+ REST APIs and microservices, integrating Apache Kafka and WebSockets for real-time data flows.
- Optimized PostgreSQL and MongoDB queries, reducing average API response time by ~40% on high-traffic endpoints.
- Containerized services with Docker and deployed AWS Lambda functions, cutting infra cost on event-driven workloads by ~30%.
- Introduced Redis caching for session and lookup data, lowering DB load by ~50% during peak hours.

Senior Software Engineer

Feb 2021 – Sept 2022

Tangentia — Technopark, Trivandrum

- Built and maintained 4 microservices (Shared, Market, Video, Social) powering “Heaven” — a Social + E-commerce + Live-Streaming platform supporting 5K+ concurrent users.
- Developed 30+ REST APIs in Laravel and Node.js consumed by React.js web and mobile clients.
- Implemented Ory Kratos for identity management and Apache Kafka topics for inter-service messaging, improving event throughput by ~3x over the previous queue setup.
- Wrote unit and integration tests (PHPUnit, Jest) and participated in code reviews to maintain quality across a team of 6 engineers.

Software Engineer

June 2019 – Sept 2020

Acube Innovations — Infopark, Kochi

- Delivered Laravel + MySQL backends for IDS (invoice delivery), Kerchanshe ERP (Purchase module), and Matrix multi-vendor platform — combined 40K+ end users.
- Integrated Flutter and Angular front-ends with 20+ backend APIs and admin dashboards.
- Refactored legacy SQL queries and added indexes, reducing report-generation time from ~12s to under 3s.

Software Developer

Dec 2017 – Dec 2018

Explore IT Solutions — Calicut

- Developed 4+ PHP/MySQL applications including Kera Cabs (online taxi service) and a PlayStation billing system used across 10+ outlets.
- Built admin panels and REST APIs for D'Life Interiors and Potafo online ordering platform.
- Collaborated in an Agile team of 5, contributing to feature design, code review, and bug-fix cycles.

KEY PROJECTS

Contract Q — CRM application built with NestJS (backend) and Next.js (frontend).

HaneBun — Image-translation studio using Python (backend) and Next.js (frontend).

Gemx — Order-management platform for cannabis retail, built with Laravel and Next.js.

Heaven — Microservices-based Social + E-commerce + Live-Streaming platform (4 modules). Laravel & Node.js APIs with React.js frontend.

SPECX MOJO — Internal R&D replica project exploring OutSystems low-code platform capabilities.

FOHO — Crypto-aware payment-update application using Laravel, MySQL, and MetaMask.

Kerchanshe ERP — Purchase module of a full ERP suite (Laravel + Flutter).

IDS — Invoice delivery service application (Laravel + MySQL).

Matrix — Multi-vendor marketplace, backend & API development (Laravel + MySQL).

Daily Bread — Online ordering application backend (Laravel + Flutter).

Kera Cabs — Online taxi-booking service (PHP + MySQL).

D'Life Interiors — Corporate website (Angular 2) with Laravel + MySQL admin panel.

Potafo — Online ordering website with Laravel + MySQL admin.

Billing Software — PlayStation billing application (PHP + MySQL).

EDUCATION

BBA — Bharathiar University (Distance Education), 2018 – 2021

BCA — Kerala University (KELTRON IT Education), 2011 – 2014

LANGUAGES

English, Malayalam, Hindi
