

ANEESH G

Senior Software Developer / Team Lead

Location: Thiruvananthapuram, Kerala, India

Email: inbox.aneeshg@gmail.com

Phone: +91 98095 35385

PROFESSIONAL SUMMARY

Senior Software Engineer / Team Lead with 10+ years of experience designing, developing, and leading scalable web and backend systems. Proven ability to lead cross-functional teams, mentor developers, and deliver high-impact solutions for enterprise and large-scale applications. Strong expertise in Node.js, PHP (Laravel, CodeIgniter, WordPress), RESTful API design, JWT-based authentication, and database optimization. Experienced in system architecture, performance tuning, security best practices, and end-to-end project ownership across logistics, education, e-commerce, and event management domains.

TECHNICAL SKILLS

Backend Development (Primary): Node.js, PHP, Laravel, CodeIgniter, RESTful API Development, API Design & Versioning, API Management, HTTP/HTTPS, JWT Authentication, Role-Based Access Control (RBAC), Socket.IO (Real-time Systems), Authentication & Authorization, Secure Backend Architecture

Databases (Primary): MySQL, PostgreSQL, MongoDB, Query Optimization, Indexing, High-Volume Data Handling

System Architecture & Performance: Scalable Backend Architecture, Microservices Readiness, Design Patterns, Performance Optimization, Caching Strategies, Security Best Practices, Data Protection

Frontend (Secondary): React.js, JavaScript, HTML5, CSS3, Bootstrap, jQuery, Ajax

Mobile & Realtime Integration: REST APIs for Flutter (Android/iOS), Firebase, Push Notifications, Real-time Communication

CMS & Platforms: WordPress, Custom CMS Development

DevOps & Tools: Git (GitHub, GitLab, Bitbucket), Postman, Swagger (API Documentation), Axure RP

Leadership & Collaboration: Backend Team Leadership, Code Reviews, Technical Mentoring, Architecture Decisions, Agile/Scrum Collaboration

PROFESSIONAL EXPERIENCE

Senior Software Developer / Team Lead

Cordova Educational Solutions Pvt Ltd — Thiruvananthapuram, India
Jan 2025 – Present

- Led backend development and technical coordination for a large-scale fleet management and shuttle service application for the Formula 1 Grand Prix (Saudi Arabia).
 - Managed task allocation, code reviews, and technical guidance for a development team delivering under strict international event timelines.
 - Designed and implemented vehicle allocation, scheduling, and real-time tracking modules for shuttles and drivers.
 - Developed RESTful APIs supporting web and mobile applications with real-time updates.
 - Implemented secure authentication and role-based access control using JWT.
 - Coordinated with event organizers and cross-functional stakeholders to align technical delivery with operational requirements.
 - Improved operational efficiency by 35% by automating manual logistics workflows.
-

Senior Software Engineer

Marlabs Software Pvt Ltd — Kochi, India
Oct 2023 – Dec 2024

- Designed and developed an enterprise Order Management System for FedEx (USA) using PHP Laravel and MySQL.
 - Led backend module development for order processing, inventory management, and multi-store operations.
 - Mentored junior developers on Laravel best practices, API standards, and database optimization.
 - Integrated REST APIs for real-time system communication, reducing synchronization delays significantly.
 - Implemented secure payment gateway integrations, improving transaction success rates.
 - Optimized database queries and application performance, reducing processing time by 40%.
 - Ensured compliance with enterprise security and deployment standards across 50+ store locations.
-

Senior Software Developer

Cordova Educational Solutions Pvt Ltd — Thiruvananthapuram, India
Jul 2022 – Oct 2023

- Led backend feature development for School Management Systems used by institutions in India and Dubai.
 - Designed and implemented REST APIs for Flutter-based mobile applications.
 - Coordinated with frontend and mobile teams to ensure seamless API integration and consistent user experience.
 - Diagnosed and resolved complex production issues, improving platform stability and performance.
 - Optimized database queries and backend logic to support scalability and growing user bases.
 - Contributed to architectural decisions and feature planning.
-

Web Application Developer

Neyyar Learning (P) Ltd — Thiruvananthapuram, India
Oct 2020 – Jul 2022

- Developed and deployed a dynamic WordPress-based website for Talent IAS Academy.
 - Customized CMS modules for course management, content publishing, and user administration.
 - Built responsive UI components using HTML5, CSS3, and Bootstrap.
 - Integrated MySQL databases for secure data storage and retrieval.
 - Provided ongoing maintenance, enhancements, and technical support.
-

Web Developer

Voxel Kraftz — Thiruvananthapuram, India
Oct 2019 – Oct 2020

- Developed a B2B hotel booking platform with real-time availability and reservation management.
 - Integrated third-party APIs for hotel bookings, transfers, and activity tours.
 - Implemented responsive frontend using Angular 8.
 - Optimized backend queries to handle high transaction volumes efficiently.
 - Collaborated with stakeholders to deliver scalable travel solutions for international clients.
-

Project Development Engineer / Technical Trainer

RSHA Software Technologies — Thiruvananthapuram, India
Feb 2014 – Sep 2019

- Designed and developed B2B and B2C online marketplace platforms.
 - Led backend development using PHP (CodeIgniter) and Node.js.
 - Implemented monetization features including memberships, premium listings, and advertisements.
 - Mentored and trained junior developers on MVC architecture, coding standards, and project workflows.
 - Conducted technical training sessions and code reviews to improve team productivity and quality.
-

EDUCATION

Bachelor of Computer Application (BCA)
Bharathiyar University, Coimbatore — 2013

LEADERSHIP HIGHLIGHTS

- Team leadership and task planning for distributed development teams
- Code reviews, mentoring, and technical decision-making
- Stakeholder communication and requirement analysis
- Ownership of end-to-end project delivery
