Web Development: HTML5, CSS3, JavaScript, React, Django, PHP

Mobile Development: Flutter

Databases: MySQL, SQLite, MongoDB

Tools & Version Control: Git, GitHub, VS Code, Linux

Soft Skills: Problem-solving, Logical Thinking, Communication, Teamwork

ACADEMIC & DEVELOPMENT PROJECTS

Home Rent Management System (Ongoing) – React, JavaScript, Modern UI | *Capstone Project*

- Developed a comprehensive web platform for searching and listing rental properties with advanced filtering
- Implemented role-based access control with secure user authentication system
- Built responsive and intuitive UI using React component-based architecture

Online Game Store with Real-time Chat System (Completed) – PHP, MySQL, JavaScript

- Created a full-featured e-commerce platform with product catalog, user authentication, and purchase system
- Integrated real-time chat functionality enabling seamless user-to-user communication
- Managed database design and backend logic using PHP and MySQL for reliability and scalability

Personal Projects (Self-initiated Learning)

- HireMap: Mobile application built with Flutter for job matching and recruitment, demonstrating advanced mobile development skills
- LifeDrop: Flutter-based mobile project showcasing state management, UI design, and cross-platform development expertise
- RestApp: React application demonstrating component architecture, state management, and form handling
- BMI Calculator: Full-featured web application with health classification logic and interactive UI

PROFESSIONAL DEVELOPMENT

- Version Control: Active in learning Git and GitHub for collaborative development and project management
- LinkedIn Profile Optimization: Building professional online presence to showcase projects and skills
- Project Documentation: Creating comprehensive documentation for portfolio projects
