- CI/CD

Experience

CodingHands | Kochi
Senior Software Developer
07/2023 - Current

- Designed and documented robust RESTful APIs using Postman, enabling seamless collaboration with frontend, mobile, and third-party platforms.
- Developed and maintained backend for a comprehensive Recipe Management System, enabling:
 - - Batch-wise ingredient planning
 - - Real-time cost calculation and recipe scaling
 - - Inventory tracking and integration
- Collaborated with React frontend developers to build a dynamic, user-friendly interface.
- Integrated secure authentication using OAuth2 and JWT tokens.
- Optimized MySQL queries and indexes, improving performance and scalability.
- Followed clean code practices and SOLID principles, improving code maintainability.

Bpract | Kozhikode
Senior Software Developer
07/2018 - 07/2023

- Led backend development of Multi-Level Marketing (MLM) software products for diverse clients.
- Integrated and secured Stripe and PayPal payment gateways for smooth transaction processing.
- Worked closely with frontend teams using Vue.js to build real-time dashboards and reports.

- Implemented role-based access control (RBAC) and detailed audit logging for user actions.
- Carried out extensive QA testing and bug-fixing cycles, ensuring production stability.
- Mentored junior developers and participated in GitLab CI/CD pipeline implementation.

Education

IHRD Nadapuram | Nadapuram
B.Sc. in Computer Science
04/2017
