

ASNA JABBAR

Full Stack Developer | Laravel Developer | PHP Developer

Alappuzha, Kerala, India | +91 82811 51483 | asnajabbar494@gmail.com

LinkedIn: linkedin.com/in/asna-jabbar | GitHub: github.com/AsnaJabbar

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in PHP, Laravel, JavaScript, and React. Specialized in backend development, RESTful API design, database management, and authentication systems. Experienced in developing scalable web applications using MVC architecture, integrating third-party APIs, optimizing application performance, and following Agile and SDLC best practices.

CORE COMPETENCIES

Full Stack Web Development, Backend Development, Laravel Framework, REST API Development, Database Design, API Integration, Authentication & Authorization, Role-Based Access Control, Performance Optimization, Debugging, SDLC, Agile Methodology

TECHNICAL SKILLS

Languages: PHP, JavaScript

Frameworks: Laravel, Node.js, Express.js, React, Blade

Databases: MySQL, PostgreSQL, MongoDB, SQLite

Backend Technologies: RESTful APIs, MVC Architecture, CRUD Operations

Security: Laravel Authentication, JWT, RBAC

Tools: Git, GitHub, GitHub Actions, Postman, Linux, VS Code

Web: HTML5, CSS3, JavaScript

PROFESSIONAL EXPERIENCE

Backend / Full Stack Developer

Bytekat Technologies Pvt. Ltd., Kerala

May 2024 – Dec 2025

- Developed and maintained 10+ backend modules using PHP and Laravel, improving application stability and code maintainability
- Created and deployed 12+ RESTful APIs that supported authentication and CRUD operations, enabling seamless frontend integration
- Applied Laravel authentication and role-based access control for 3+ user roles, reducing unauthorized access issues
- Integrated Razorpay payment gateway, enabling secure online payments and improving transaction reliability
- Improved MySQL query performance and backend logic, reducing API response time by approximately 30–35%
- Collaborated with frontend teams to resolve API issues, reducing integration-related bugs during deployment
- Executed unit testing and debugging activities, contributing to smoother production releases

Full Stack Developer Intern

Camerin Folks Pvt. Ltd., Kerala

April 2024 – September 2024

- Built 6+ backend services using Node.js and Express.js, supporting internal tools and client-facing features
- Delivered REST APIs with JWT-based authentication, improving application security and user session handling
- Enhanced MongoDB schemas, improving query efficiency and reducing data retrieval time
- Assisted in executing CI/CD pipelines using GitHub Actions, helping reduce manual deployment effort
- Coordinated with frontend developers to test APIs using Postman, minimizing integration defects

PROJECT EXPERIENCE

Online Home Service Management System

- Developed full stack web application using Laravel and MySQL
- Implemented user authentication, service booking, and admin modules
- Designed relational database schemas and optimized queries

Employee Management System

- Built Laravel-based web application for employee data management
- Implemented attendance tracking, payroll processing, and reporting

EDUCATION

Master of Computer Applications (MCA)

Mahatma Gandhi University | 2022 – 2024 | CGPA: 8.3

Bachelor of Science in Chemistry

CERTIFICATIONS

- PHP & Laravel Certification – MVC, REST APIs, Database Integration
- NPTEL SWAYAM – Industry 4.0 and Internet of Things
