Soft Skills	Problem Solving, Team Collaboration, Communication, Time Management

EXPERIENCE

Software Engineer Jun 2023 - Present
Infinite Open Source Solutions *Kozhikode, Kerala*

- Spearheading the development and maintenance of MLM projects, improving system efficiency and user experience
- Developing and maintaining Laravel-based web applications with focus on scalability and performance
- Developing and maintaining Customised Opencart web applications with focus on scalability and performance
- Collaborated with cross-functional teams using Git and Docker, contributing to smooth team workflows and efficient project delivery.
- Recognized twice as Best Laravel Developer for outstanding performance and contributions during Jan 2024–Jun 2024 and Jan 2025–Jun 2025.

PROJECTS

MLM Management System. Built a comprehensive Multi-Level Marketing platform using Laravel and MySQL. Developed complex commission calculation system handling multiple hierarchy levels. Implemented secure user authentication and role-based access control. Technologies used: Laravel, MySQL, PHP, REST APIs.

Employee Time-Tracking Software. Contributed to the development and optimization of a proprietary employee time-management solution. Worked on resolving critical bugs to enhance system reliability and improve user experience. Designed and implemented real-time task-tracking features to boost workforce productivity. Technologies used: Laravel, MySQL, PHP

E-Commerce Platform Development. Developed a comprehensive e-commerce platform enabling seamless product purchases. Integrated the platform with Odoo for real-time order synchronization, ensuring efficient order management. Successfully implemented secure payment gateway solutions to facilitate smooth and reliable transactions. Technologies used: Opencart, Laravel, MySQL, PHP
