Objective

With over 7+ years of hands-on experience in PHP frameworks such as Laravel and CodeIgniter, I specialize in developing robust web applications and scalable solutions. Currently serving as a Technical Lead at MEETCS Pvt Ltd, I also bring a strong background in Moodle and WordPress development as well. I am also having 4+ years of experience in leading a team of 3 developers, 1 BA, 2 tester. I have a consistent track record of delivering high-quality products, driving successful project outcomes, and contributing strategically to organizational goals. My deep technical expertise and product-oriented mindset make me a valuable asset in fast-paced development environments.

Experience

- Sanjar E Solutions Pvt Ltd** 19-03-2018 - 30-04-2020
Software Developer
- MEETCS Pvt Ltd** 04-05-2020 - Present
Technical Lead

Skills

- PHP
- Laravel
- CodeIgniter
- HTML, CSS, JS, JQuery
- Moodle
- React

Education

- Bharati Vidyapeeth Deemed University** 2013-2016
Bachelor in Computer Application

Projects

- ERP & Admission portal (Tata Institute of Social Sciences)**
Tech Stack: PHP, CodeIgniter 3, MySQL, HTML/CSS, JS, JQuery, AJAX

Maintained and extended ERP & Admission Portal.

New modules in ERP like Hall ticket generation, Placement, Credit & Grade cards, ICICI, HDFC payment gateway.

Third party exam platform integration.

- **Rubiversity (Rubiscape)**

Designed, developed, and maintained custom Moodle plugins and themes to enhance LMS functionality and user experience.

Integrated Moodle with third-party systems such as CRM, HRMS using REST APIs.

Customized Moodle's core features to support organization-specific workflows and reporting needs.

Collaborated with instructional designers and administrators to implement SCORM learning modules.

Managed version control, deployment, and code reviews using Git in an Agile environment.

Supported Moodle installations, upgrades, and security patching across multiple environments.

Customised responsive Moodle themes using HTML5, CSS3, and JavaScript, ensuring cross-device compatibility.

Automated course enrollment, grading, and user management through Moodle API scripts.

Provided technical support to educators and administrators, resolving system bugs and configuration issues.

- **Talenticks (HRMS)**

Tech Stack: Codeigniter 3, MySQL, HTML/CSS, JS, JQuery, AJAX

I Played a key role in the development of Talenticks, a gamified HRMS platform designed to streamline and automate core HR functions.

The solution integrated Employee Management, Attendance Tracking, Payroll Processing, Onboarding, Gamification, Full & Final Settlement, and Exit Management - reducing anual HR workload by over 60% and significantly simplifying payroll operations.

- **HNI Lifestyle (E-Commerce)**

Tech Stack: Laravel, MySQL, HTML/CSS, JS, JQuery, AJAX, SMS/Email API, Payment Gateway Integration, Delivery Tracking System

- Developed and maintained a full-featured e-commerce platform using Laravel, supporting multi-role user access (Customer, Staff, Administrator).

- Implemented comprehensive user management, including authentication, role-based permissions, and profile handling.

- Built robust order management and wallet management systems to streamline purchasing and payment processes.

- Integrated winner and offer management modules to boost customer engagement and support marketing strategies.

- Enhanced operational efficiency by reducing manual tasks by over 80%, contributing to increased company profitability.

- Ensured scalable and maintainable architecture to support future feature expansions.

- **Live101 - Online Artist Booking Portal**

Technologies: Laravel, MySQL, JavaScript, AJAX, jQuery, SMS/Email API, Payment Gateway Integration

Developed Live101, a Laravel-based artist booking platform tailored for various occasions and events. The system streamlines the booking and scheduling process for artists, reducing manual workload by 60-70%.

Key Features & Contributions:

- Implemented social media-based and OTP (SMS/Email) registration & login to enhance user onboarding and security.
- Developed responsive, user-friendly booking interface for seamless artist search and booking.
- Integrated payment gateway for secure online transactions and artist payments.
- Built robust artist scheduling module, automating availability management and reducing admin overhead.
- Ensured modular, scalable code for maintainability and future feature additions.

- **Excl Logistics**

Technologies: Laravel, MySQL, JavaScript, AJAX, jQuery, SMS/Email API, Payment Gateway Integration

- Designed and developed Excl Logistics, a SaaS-based application using Laravel to streamline logistics operations, including truck and driver management for vendors.
- Integrated Samsara API to automate real-time tracking of containers and trailers, significantly reducing manual operations and operational costs.
- Developed a custom driver payroll module, reducing manual calculation errors by 80% and -streamlining salary processing.
- Improved operational efficiency by 40% through automation of tracking, billing, and logistics workflows, reducing human error.
- Enabled easy management of customer billing, parcel tracking, and invoicing, improving vendor and client satisfaction across the logistics process.

Certificates

- **Hacker Rank MySQL Basic**

Certificate No: 1AF7D6D218BD
