SUMMARY

I'm a Senior Full Stack Developer with **5 years of experience** building scalable web applications across both service-based and product environments. Highly proficient in **Laravel, CodeIgniter, Vue.js, and React.js**, I specialize in designing secure, high-performance systems with clean, maintainable architecture. I'm passionate about learning emerging technologies, mentoring teams, and delivering innovative digital solutions that drive business growth and enhance user experience.

EXPERIENCE

06/2025 – Present
Bangalore, India

Senior Laravel Developer (Team Lead)

Toolyt [🔗](#)

- Leading the backend development of a **Sales Assistance SaaS application**, designed to streamline sales workflows and customer engagement for enterprise clients.
- Architected and optimized **Laravel-based microservices**, improving application performance and scalability.
- Designed and implemented **RESTful APIs** for seamless integration with mobile and web clients.
- Mentored a team of 4+ developers, conducted code reviews, and enforced clean coding and version control practices.
- Integrated **advanced data tracking modules**, enabling analytics and reporting on sales activities in real time.
- Implemented **role-based access controls, event broadcasting, and queued jobs**, ensuring secure and efficient backend operations.
- Collaborated cross-functionally with frontend, QA, and product teams to align technical solutions with business objectives.
- Handled **cloud deployment and CI/CD automation** on AWS and Docker, reducing release time by 40%.
- Optimized database performance using **query caching, indexing, and optimized Eloquent relationships**.
- Contributed to product roadmap discussions, translating requirements into scalable system designs.

01/2024 – 04/2025
Kochi, India

Senior Php Developer

WebCastle [🔗](#)

Company Description

- Developed and maintained a scalable, web-based training SaaS platform, with a strong emphasis on streamlined user experience and compliance with web standards.
- Enhanced user experience by ensuring well-structured, standards-compliant code across front and back-end environments.
- Advanced proficiency in Vue.js, React, and Next.js, contributing to more interactive and responsive web applications.
- Designed and implemented robust REST APIs for seamless data exchange across multiple client and internal systems.
- Managed deployments on cloud platforms such as Oracle Cloud and AWS, optimizing for performance and reliability.
- Built custom Shopify apps to extend e-commerce functionalities, catering to unique client requirements.

- Conducted API security reviews and implemented best practices for secure, high-traffic data exchanges.
- Implemented CI/CD practices to streamline deployments and reduce development cycle times.
- Led technical support efforts for deployed applications, resolving client issues and implementing improvements.
- Mentored junior developers, fostering knowledge-sharing and skill development within the team.
- Leveraged advanced AI techniques, including machine learning and natural language processing, to enhance application functionality and deliver personalized user experiences.

02/2022 – 08/2023
Dubai, United Arab
Emirates

Full-stack Developer
