PROFESSIONAL EXPERIENCE

Full Stack Developer

Techsoft Web Solutions , Panampilly Nagar,Kochi

January 2021 – Present

Duties

- Develop, maintain, and optimize full-stack web applications using Laravel, Codeigniter, Php with seamless front-end/back-end integration.
- Manage e-commerce platforms and implement robust API integrations for performance and scalability.
- Identify and execute performance enhancements, staying updated with evolving web and e-commerce trends.

Achievements

- **Ecommerce App Development :** Developed online retail platforms with secure payments, order tracking, and user account management
- **Hotel Booking Application :** Developed hotel booking web application with multi-room selection, secure payment integration, a dashboard for managing bookings, rooms, and analytics , improving booking efficiency, operational control, and customer experience.
- **Developed & Designed Reporting Modules:** Created comprehensive reporting modules for the CRM and procurement processes of an ERP Web Application, enabling real-time insights and improving decision-making efficiency for business stakeholders.
- **Custom Web Application for Travel Agency:** Developed a tailored web application to manage travel bookings, utilizing AJAX for partial page loads to provide a seamless user experience (UX). This reduced operational costs by **60%** compared to off-the-shelf CRM solutions.
- **API Development and Integrations :** Created scalable REST API endpoints and consumed external APIs, ensuring smooth communication across multiple platforms and applications.
