

Amritha Sunny

FULL STACK DEVELOPER

Kerala - India | +91 7356889520 | amrithasunny11@gmail.com | [Linkedin](#)

Professional Summary

Seasoned PHP Developer and technology leader with 9 years of experience in designing, developing, and managing sophisticated web applications and systems. Specializes in PHP, HTML, JavaScript, CSS, jQuery, Ajax, Bootstrap, React JS, and Python Django. Proven leadership abilities as a Team Lead, managing and motivating teams to achieve project goals and deadlines. Proficient in full-stack web development with a focus on user-friendly applications. Recognized for innovative problem-solving, enhancing system efficiency, and user experience. Effective communicator known for positive attitude, time management, and systematic task organization.

Experience

Vitel Global Communications | Full Stack Developer | July 2023-October 2024

- Spearheading development on critical web applications, including Vitel SMS Portal and PAYG, leveraging advanced web technologies
- Collaborating closely with cross-functional teams to ensure seamless integration and deployment of new features.

Projects

1. PAYG - Developed and managed the PAYG project, enabling users to purchase and manage DID numbers, while providing access to call and SMS history through third-party API integration. Utilized Python Django, React.js, MySQL, AWS S3, and Bootstrap for a seamless user experience, ensuring efficient data management and cloud storage solutions.
2. Omni Channel - Led the development of the Omni Channel project, integrating multiple platforms like WhatsApp, Instagram, and Facebook into a unified portal for businesses to manage communications. Implemented using Python Django, React.js, MySQL, AWS S3, and third-party APIs for seamless interaction with WhatsApp APIs and SMS services.
3. Star Digital Portal - Contributed to the Star Digital project, enabling users to purchase services like website development and digital marketing. Worked on key modules including questionnaires, invoices, and service contracts, utilizing PHP, CodeIgniter, MySQL, AWS S3, and AngularJS v1.4.8 for efficient service management and client interactions.
4. Vitel SMS Portal - Developed the Vitel SMS portal, allowing users to purchase numbers and send MMS and SMS, alongside building a WhatsApp clone project. Also worked on chatbot development and the admin interface, leveraging PHP, CodeIgniter, MySQL, AWS S3, and AngularJS v1.4.8 for robust messaging and management functionalities.

5. Vitel PBX - Worked on Vitel PBX, offering services such as auto provisioning, VoIP trunks, outbound/inbound routing, PBX settings, and admin/user management. Utilized Python Django, React.js, MySQL, AWS S3, and Bootstrap to develop a scalable and efficient communication platform with comprehensive PBX management features.

Telsim Australia, Kochi | Team Lead | July 2021 – April 2023

- Led the development and deployment of customer-facing and administrative portals, significantly improving user experience and operational efficiency.
- Managed project timelines, allocated resources, and ensured the highest quality standards.

Codepoint Software Pvt. Ltd, Kochi | Team Lead | December 2019 – July 2021

- Led the development and deployment of customer-facing and administrative portals, significantly improving user experience and operational efficiency.
- Managed project timelines, allocated resources, and ensured the highest quality standards.

Ravsan Media Solutions LLP, Kochi | Team Lead | October 2018 – December 2019
