Senior Software Engineer

Senior Software Engineer with 11+ years of experience designing, developing, and maintaining scalable web applications and enterprise software platforms. Specialized in PHP, Laravel, REST API development, backend architecture, and database optimization. Proven success delivering high-performance systems including job portals, CRM platforms, HRMS solutions, communication platforms, and booking systems. Strong experience with API integrations, system architecture, Agile development, and mentoring engineering teams.

WORK EXPERIENCE

Eben Technologies Pvt Ltd Senior Software Engineer

Jul 2017 – Present
Kochi, India

- Architect, develop, and maintain scalable web applications and backend systems using PHP frameworks including Laravel and Phalcon.
- Design and implement RESTful APIs supporting web and mobile platforms with secure authentication and high performance.
- Build and maintain cross-platform mobile applications using Flutter and Android Studio.
- Optimize MySQL database performance through indexing strategies, query optimization, and schema improvements.
- Integrate third-party APIs including payment gateways, SMS gateways, and enterprise service integrations.
- Lead code reviews, enforce coding standards, and mentor junior developers to improve code quality and team productivity.
- Collaborate with product managers, QA teams, and designers to deliver end-to-end software solutions.
- Participate in Agile sprint planning, development cycles, and continuous deployment processes.

Eben Telecom Pvt Ltd Software Developer

May 2014 – Jul 2017
Kochi, India

- Developed and maintained dynamic web applications using PHP, JavaScript, HTML, and jQuery.
- Implemented backend modules and database interactions using MySQL.
- Improved application performance and reliability by refactoring legacy code.

Assistant Team Lead

- Coordinated development tasks and supported project management activities.
- Assisted team members in resolving technical issues and meeting delivery deadlines.

Customer Relations Officer

- Managed telecom customer support operations and ensured service quality standards.

EDUCATION

B.Tech – Computer Science
College of Engineering Kottarakara

PROJECTS

IRL Jobs – Job Portal Platform

- Developed a full-scale job portal allowing employers to post jobs and candidates to search and apply.
- Built modules for job posting, candidate registration, employer dashboards, and application tracking.
- Implemented advanced job search filters and REST APIs for system integrations.

Estuaries Holidays – Travel Booking Platform

- Developed tourism booking platform supporting travel packages and online reservations.
- Integrated third-party travel APIs and implemented booking workflow automation.

HRMS – Employee Management System

- Developed HR management platform supporting employee onboarding, attendance, payroll, and exit management.
- Implemented reporting dashboards and employee lifecycle workflows.

Eben Events – Project & Inventory Management System

Developed enterprise application for project tracking, quotation management, invoicing, and inventory monitoring.

Unified Buzz – Multi-Channel Communication Platform

- Built messaging platform integrating SMS gateway, voice messaging, email services, IVR, and USSD solutions.
- Developed API services enabling third-party system integrations.

Enterprise CRM Platforms

- Designed and implemented CRM systems used by telecom and financial organizations.
- Built modules for customer management, call center workflow automation, ticketing systems, and reporting dashboards.

CRM License Management System

Internal system for tracking CRM deployments and license usage.

Corporate Websites

Developed responsive websites for corporate branding and digital presence.

Python Utility Tools

Built internal productivity tools including PDF merger, file split/merge tools, password generator, and video compressor.
