

ANU ABRAHAM

Software Developer | IT Infrastructure & Support | Full-Stack Web (PHP / WordPress / Azure / HTML)
+91 952 641 8267 | anuabraham325@gmail.com | Kerala, India | Open to Gulf / GCC relocation
LinkedIn: www.linkedin.com/in/anu-abraham2026 |

PROFESSIONAL SUMMARY

Results-driven Software Developer and IT Support Engineer with 5+ years of experience delivering PHP/WordPress web solutions, enterprise IT infrastructure, and cloud-based systems. Deployed 25+ client websites, managed IT assets for 150+ users, and configured Azure VPN remote-access environments across multi-site operations. Adept at bridging development and IT support — building reliable, scalable systems while ensuring network stability, security compliance, and seamless end-user experiences. Open to relocation across India and GCC.

TECHNICAL SKILLS

Languages & Markup: PHP, HTML5, CSS3, Bootstrap 4/5, JavaScript (ES6 basics), jQuery, C, C++, Java, .NET

CMS & Frameworks: WordPress (theme/plugin customisation, WooCommerce, Elementor), Visual Studio Code

Database: MySQL (phpMyAdmin, basic queries, CRUD operations), basic SQL

Cloud & Networking: Microsoft Azure (VPN Gateway, Azure AD, Virtual Networks), VPN configuration, TCP/IP, LAN/WAN, DNS, SSL/TLS certificate management, Proxy settings

Version Control: Git (GitHub — basic branching, commits, pull requests)

IT Tools & Systems: TeamViewer, Slack, Microsoft Teams, GoDaddy (hosting, DNS, cPanel), IVMS, BioTime, Avaya IP Office & Call Reporting

Hardware & Support: IT asset management, device configuration & imaging, OS installation & maintenance, remote desktop (RDP), helpdesk support

Productivity: Microsoft Outlook, Word, Excel

WORK EXPERIENCE

Software Developer & IT Support Engineer

Jul 2020 – Jan 2026

K-Tele Technologies — Kerala, India

- Developed and deployed 25+ client websites using PHP, WordPress, and HTML5/Bootstrap, managing the full lifecycle from requirements gathering and design through GoDaddy hosting, DNS setup, SSL configuration, and go-live.
- Configured and maintained Azure VPN Gateway solutions enabling secure remote access for 50+ staff across multiple office locations, reducing remote connectivity issues by ~40%.
- Administered Avaya IP Office call reporting systems — optimised call-routing configurations and produced monthly performance reports for management, improving call-handling efficiency by ~25%.
- Managed IT assets, hardware inventory, and software licensing for 150+ end-users; maintained accurate inward/outward asset records with zero compliance incidents in 3 years.
- Delivered Level 1 & 2 IT support via TeamViewer, Slack, and Microsoft Teams — resolving software installation, configuration, and connectivity issues with a 90%+ first-contact resolution rate, handling 50+ tickets/month.
- Deployed and maintained IVMS and BioTime cloud attendance systems for multi-site workforce tracking; integrated with HR workflows and resolved device-to-cloud sync issues within 24-hour SLA.
- Set up and maintained MySQL databases for WordPress sites via phpMyAdmin; performed regular backups, optimised queries, and managed hosting environments through GoDaddy cPanel.
- Provided end-user training on software usage, cybersecurity best practices, and IT procedures for 100+ staff, reducing repeat helpdesk tickets by ~30%.

- Managed DNS records, SSL/TLS certificate renewals, and domain configurations for all hosted client websites, maintaining 99%+ uptime.

Software Engineer (Intern)

Sep 2018 – Feb 2019

UnityOn Solutions — Trivandrum, Kerala, India

- Contributed to design and development of 5+ client websites using PHP and WordPress in a team environment.
- Managed domain hosting, DNS configuration, and deployment via GoDaddy for multiple client projects.
- Collaborated with senior developers using Visual Studio Code to deliver responsive, cross-browser-compatible web solutions.

Executive Customer Interface

Jun 2017 – Dec 2017

JSK Pvt Ltd — Ernakulam, Kerala, India

- Managed customer inquiries and complaints for 80+ clients/day, maintained confidentiality standards, and consistently met or exceeded service quality targets.

KEY PROJECTS

Azure Remote Access VPN — K-Tele Technologies

- Designed and deployed an Azure VPN Gateway solution for 50+ remote staff; configured virtual networks, subnets, route tables, and access policies. Reduced remote connectivity incidents by ~40% and eliminated the need for third-party VPN subscriptions.

25+ Client Websites — WordPress / PHP Platform — K-Tele Technologies

- Developed and launched 25+ responsive business websites using WordPress, PHP, and Bootstrap. Managed the full pipeline: MySQL database setup, GoDaddy hosting & cPanel configuration, DNS records, SSL certificates, SEO-ready structure, and post-launch support.

IVMS & BioTime Attendance System Integration — K-Tele Technologies

- Deployed and maintained cloud-based attendance systems (IVMS, BioTime) across multiple sites; integrated with HR workflows, troubleshooted device-to-cloud sync issues, and maintained sub-24hr resolution SLA.

Energy-Preserving Task Scheduling in Heterogeneous Cloud Frameworks — Academic (Anna University, 2016)

- Final-year research project (90 days, PHP) — designed and implemented a simulation framework to benchmark energy-efficient scheduling algorithms for heterogeneous cloud environments.

EDUCATION

Bachelor of Engineering — Computer Science & Engineering

Aug 2012 – Apr 2016

Anna University, Chennai, India

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Certification in C, C++, Java, and .NET, 2016
- National Level Workshop Certification — Multimedia Tools & Web Template Design, 2015
- Microsoft Azure Fundamentals (AZ-900) — In progress
- Self-directed learning: WordPress theme/plugin development, MySQL optimisation, Git version control, basic SEO (Udemy / YouTube, ongoing)
