MAJOR PROJECTS

- **Effective Management Of LOC Issuance**

URL: <https://emli.kerala.gov.in/main/frame.phphome> [↗](#)

IDE Technology Description: Visual Studio Code

Technologies: Core PHP, MySQL

Description:A web-based application designed to automate the issuance of Letters of Credit (LoC) based on bills submitted by various work-executing departments. The system facilitates entry and verification at Division Offices and confirmation at Chief Engineer Offices, effectively monitoring balances and generating unique work IDs for projects with administrative sanction.

- **Kerala Budget**

URL: <https://beta.budget.kerala.gov.in/portal/home> [↗](#)

IDE Technology Description: Visual Studio Code

Technologies: PHP, Symfony, MySQL

Description: The Kerala Budget website, managed by the Finance Department of the Government of Kerala, serves as the official portal for all budget-related information. It provides access to various documents, including Budget Speeches, Detailed Budget Estimates, and updates on fiscal policies. Users can explore resources such as the Budget Speech for 2025-26, and performance budgets of different departments.

- **Asset Management System (ASMS)**

IDE Technology Description: Visual Studio Code

Technologies: PHP, Laravel, MySQL

Description: Site Asset Management System: Developed and implemented a system to manage assets across various government departments, ensuring efficient tracking, maintenance, and reporting of assets.
