- Javascript,jQuery,AJAX
 - MySQL,pgSQL
 - Cursor Ai

EDUCATION

Vijnan Institute of Science & Technology,Ernakulam

2013-2017

B.Tech in Electronics & Communication Engineering
CGPA: 7.2

PROJECTS

ERP

Developed and maintained a comprehensive ERP system integrating Trading, Service, and Manufacturing modules to streamline business operations across departments. The system enables efficient coordination between teams, real-time tracking of inventory, production, and service activities, and supports data-driven decision-making. Implemented features for sales forecasting, resource planning, and process optimization, improving overall productivity through a centralized and unified platform.

ICMS

ICMS is developed to address the needs of a parish by providing a secure online environment for facilitating the activities of the parish community. The system provides for a hierarchical access to the various modules, as authorized by the rules of the parish, along with the ability to document details of the same for future reference.

LOSMAT

It is an exclusive school management software and student information software developed for advancing day to day operations of any educational institutions including schools, colleges, and other training centers. LOSMAT is highly scalable and robust. LOSMAT offers a variety of management solutions in one place. Most challenging tasks like timetable allocation, fees management, bulk student data export, and import are made easier with LOSMAT.

TFL VALVES

Designed and developed the official website for TFL Valves (<https://www.tflproducts.com/>), creating a responsive and user-friendly platform to showcase the company's HVAC and plumbing product range. Integrated dynamic product displays and optimized website performance for faster loading and better accessibility.

INFINITE DIMENSIONS

Designed and developed the official website for Infinite Dimensions Property Advisory (<https://www.idimensionsuae.com/>), creating a responsive and user-friendly platform to showcase real estate properties and services. Integrated dynamic property listings and advanced search features, optimizing performance for faster loading and better accessibility.

DECLARATION

All the information furnished above is true and correct to the best of my knowledge.
