

Aravinth M

Lead Engineer - Technology

+91 96590 58474 @aravinthecs@gmail.com Kalampalayam, Coimbatore, Tamil Nadu, 641010, India LinkedIn

PROFESSIONAL SUMMARY

Experienced Full-Stack Developer with 11+ years of experience in PHP, Node.js, MySQL, and MongoDB. Proficient in front-end technologies (HTML, CSS, JavaScript, jQuery, AJAX, Bootstrap) and frameworks like CodeIgniter, Laravel, and WordPress. Skilled in RESTful API development and marketing automation integrations (Eloqua, SFMC, MCAE, Marketo). Passionate about building scalable, high-performance, and secure solutions, leading teams, and driving business success.

WORK EXPERIENCES

Lead Engineer - Technology

Dec'18 - Present

Verticurl (A WPP Company)

Coimbatore, Tamil Nadu, India

- **Client: VRapido & Playbook (Internal Application)**
 - Led a team in developing a web application using PHP CodeIgniter to streamline email, segment, and campaign creation through MAP tool REST APIs.
 - Implemented CI/CD pipelines with Bitbucket for seamless deployments between staging and production environments while enforcing OWASP best practices, reducing vulnerabilities by 90% and enhancing security.
 - Worked with MAP tool REST APIs including Eloqua, Marketo, and Adobe Campaign.
 - Built a custom WordPress website with multiple templates and pages from a non-CMS website.
- **Client: Samsung**
 - Led the team in planning and migrating many assets between platforms using PHP CodeIgniter 4 and REST APIs.
 - Developed a middleware solution to streamline the asset migration process with a team of 5+ developers.
- **Client: Nokia**
 - Led the team in creating a custom preview and builder application in PHP CodeIgniter.
 - Developed a tool to preview and update Workfront data with Marketo assets like emails and landing pages.
- **Client: Intel**
 - Developed web pages for IoT and Computex events with QR code attendee tracking integrated with Eloqua marketing automation.
- **Automation Using MAP API**
 - Built an ICS application with a file generator automation that directly uploads files to Eloqua using PHP CodeIgniter which reduced the manual effort by 90%.
 - Automated data fetching from MAP tools using Power Query for reporting.
 - Developed a shared filters automation to process large datasets and reduce manual workload using Laravel.
- **Client: ISC2**
 - Led the team in asset creation and migration of existing Sitecore pages to SFMC using AMP script.
 - Integrated form data with SFDC for seamless data processing.

Software Development Engineer

Mar'16 - Dec'18

Ephron Systems

Coimbatore, Tamil Nadu, India

- **Client: Northcapital**
 - Led the development team, managing the creation of new API methods for user transactions, overseeing web page management, and facilitating client communication.
 - Developed REST APIs with PHP CodeIgniter framework for Northcapital's investment platform, integrating USAEpay and Tristate payment APIs while enhancing security with OWASP best practices, reducing vulnerabilities by 90%.
 - Integrated Gmail API for email sending and retrieval. Built an admin portal for managing API transactions.
 - Created REST APIs using Node.js for Ethereum cryptocurrency integration in the share process. Implemented AWS S3 Bucket and Lambda functions for secure storage.
 - Developed a web page and admin portal to manage company and investment details.

Senior Web Developer

Sep'15 - Mar'16

Design Spot

Coimbatore, Tamil Nadu, India

- **Client: My Sports Factory**
 - Developed a dynamic web platform and admin portal using the CodeIgniter framework to manage apparel sales and serve as a career hub for sports professionals.

Web Developer

May'14 - Aug'15

Inceptis Technologies

Coimbatore, Tamil Nadu, India

- **Account Maintenance Application**
 - Developed a web application for managing account and transaction details of wholesale products using PHP and OOP principles.

Junior Web Developer

Sep'13 - May'14

Smite Solutions

Coimbatore, Tamil Nadu, India

- **Client: Web User Management**
 - Assisted in the development of a web application for user management.

SKILLS

- Web Development - PHP, Node.js
- Database Management - MySQL, MongoDB
- API Development - RESTful architecture, SOAP
- Frameworks - CodeIgniter, Laravel
- DevOps & CI/CD - Bitbucket Pipelines
- Version Control & Automation - Git, Bitbucket
- Content Management System - WordPress

CERTIFICATIONS

- Web Development - Rich Internet Application.
- Segment CDP - Delivery Readiness Certification
- Segment CDP - Consulting Partner Associate Certification

AWARDS

- **Delivery Excellence Award**
 - Led the team and developed automation solutions to migrate a large volume of emails, web pages, and complex campaigns efficiently.
- **Special Automation Award 2022**
 - Developed automation to generate ICS files and seamlessly upload them to the MAP tool via REST API.
 - Additionally, implemented Power Query automation to extract data from MAP tools, streamlining the reporting process.
- **Best Innovation Award**
 - Implemented user attendee capture through confirmation emails with QR codes, ensuring instant data transfer to SFDC.
- **Spot Award**
 - Led the migration of the existing website to SFMC and integrated form submission data with SFDC.
