Projects

JMS-ONE:

JMS One [jms-one.uk/]Israel-time staff management system for employers and employees who require a solution for round-the-clock job availability, booking, and payments management. JMS One is a single product for Job Management, having different login types such as user, client, unit, agency, and admin. Having various modules like jobs, reports, compliances, registrations, and clients, etc., for managing users and monitoring users. JMS One is ideal for healthcare, construction, and other sectors where flexible staff are commonplace.
