PROJECTS

Bozzuto Tools (02/2024 - Present)

- **Technology Used:** PHP-Yii2, HTML, CSS, JavaScript, JQuery, MySQL, AWS S3
- Managed team operations by overseeing task allocation, providing accurate effort estimations, and ensuring timely project delivery.
- Fullstack development of features, their deployment, Database designing and code review.
- Improved application functionality by optimizing code and developing reusable components to enhance efficiency and maintainability.

Employee Engagement System - Dev&Support (11/2022 - 01/2024)

- **Technology Used:** PHP Laravel
- Handled backend development tasks, deployment, code reviews, and bug fixes. Optimized APIs, migrated them to newer versions, and created comprehensive API documentation using Swagger.
- Conducted vulnerability assessments and implemented fixes to ensure compliance with VA certification requirements.

TLSM IOT (02/2022 - 09/2022)

- **Technology Used:** PHP-Laravel, HTML, CSS, JavaScript, JQuery
- Full-stack development, code review and deployment.
- Implemented cron jobs to fetch and update sunrise/sunset times using OpenWeatherMap API and calculate azimuth angles.

Nextware SOP (08/2021 - 02/2022)

- **Technology Used:** PHP- Laravel, Angular 7, HTML, CSS
- Independently handled API development, feature deployments, task estimation, code reviews, testing, and bug fixing.

Employee Management Portal (01/2021 - 07/2021)

- **Technology Used:** PHP Laravel, AngularJS
- Full-stack development, code review and deployment.
- Guiding junior developers with their tasks.

ERP Web Application (09/2019 - 12/2020)

- **Technology Used:** PHP Laravel, ReactJS
- API development of different modules.
- Mentoring, onboarding and training junior developers.

Service Management Web Application (11/2017 - 08/2019)

- **Technology Used:** PHP Laravel
- API development, MySQL query Optimization and Quickbooks integration and two-way sync of data.
- Generation of different reports in PDF/Excel format.
