OBJECTIVE

A BCA graduate with a passion for coding, problem-solving, and technology-driven innovation. Skilled in software development, database management, and web technologies. Eager to apply my knowledge and grow in a dynamic IT environment.

SKILLS

- **Programming:** PHP, Python, Java script, Typescript and SQL
- **Web Development:** HTML, CSS, PHP, Angular, TypeScript, JavaScript, Flutter and Vite React
- **Databases:** MYSQL And MONGODB
- **Data Analysis:** Excel, Data Visualization, Machine Learning
- **Flutter Development:** As a Flutter Front-End Developer whose role involves building natively compiled applications for mobile, web, and desktop from a single codebase using the Flutter framework.
- **PHP Web Design:** responsible for creating visually appealing and responsive websites while making them dynamic and data-driven. They design the front-end using HTML, CSS, and JavaScript, and use PHP to connect the site with a **MySQL** database for storing and retrieving information such as user accounts, registrations, or content. Their role combines **design skills** (layout, user experience, responsiveness) with **back-end development** (database integration, form handling, authentication), ensuring the website not only looks good but also functions smoothly with real-time data.
- **Angular:** As an Angular Front-End Developer, your role involves building dynamic, scalable, and maintainable front-end applications using the Angular framework.
- **Vite-React:** As a **Vite React with MongoDB** developer, whose role involves building fast, scalable, and efficient web applications using Vite, React, and MongoDB
- **Data Analysis and Visualization:** Expertise in creating interactive dashboards and reports using Power BI.

EXPERIENCE, INTERNSHIPS & PROJECTS

✓ SPARK TECHNOMEDIA

PHP Full Stack Developer | From 14th April 2025 – till date

- User Interface (UI): Creating visually appealing and user-friendly interfaces using HTML, CSS, JavaScript, and frameworks like Bootstrap or React.
- Client-side logic: Writing JavaScript code to handle client-side interactions, animations, and dynamic effects.
- Server-side logic: Developing server-side applications using PHP to handle requests, process data, and interact with databases.
- Database management: Designing, implementing, and managing databases using **MySQL** to store and retrieve data.
- API development: Creating RESTful APIs to facilitate communication between front-end and back-end.

✓ THINKSMART TECHNOLOGIES

Angular Trainee | From 1st April 2025 – 14th April 2025

- Mobile App Development: Creating apps for mobile devices, such as iOS and Android.
- Web App Development: Building web applications that run on web browsers.
- Desktop App Development: Developing applications for desktop computers, such as Windows, macOS, or Linux.

✓ SMEC Automation Pvt Ltd, Ernakulam, India (INTERNSHIP)

Python Intern | 8th May 2024 – 31st May 2024

- Learned Figma for UI/UX design, creating interactive prototypes for web applications.
- Gained expertise in Python web app development using Flask/Django.

- Developed and optimized Python scripts for automation, improving processing efficiency.
- Built a web-based project integrating frontend design (Figma) with backend development (Python, Flask/Django).
- Enhanced debugging skills, identifying and resolving bugs to improve application performance.

✓ **PROJECTS**

- **Go Trip (PHP Web Design):** A Trip Management System which is designed to streamline and automate the process of planning, managing, and tracking trips for individuals or organizations.
- **Booking App(Angular):** A Badminton Court Booking Management App is a software solution designed to streamline the process of booking and managing badminton courts.
- **Dream_Sports_Academy(Angular):** A Sports Admin Management App built with Angular is a web application designed to streamline sports administration tasks, providing a robust platform for managing teams, players, schedules, and more.

EDUCATION

- **Currently pursuing Master of Computer Applications (MCA)**
 - **MERN STACK (Advanced course completed on 13.10.2025)**
 - **Bachelor of Computer Applications (BCA)**
Bharathiar University, Nehru Arts and Science College | 2025 | 71%
 - **12th Grade**
CBSE, Ahalia Public School | 2022 | 63%
 - **10th Grade**
CBSE, Ahalia Public School | 2020 | 86%
-

CERTIFICATIONS

- MERN STACK ADVANCED COURSE COMPLETION
 - SMEC Python Internship
 - Fundamentals of Data Analytics – L&T Edutech
 - Programming For Data Analytics– L&T Edutech
 - Basics of Python – Infosys Springboard
 - SQL views – Infosys Springboard
 - English Certification – Upskill from Cambridge
 - IoT_Edge_Computing_and_IoT_Analytics
-

ADDITIONAL INFORMATION

- Passionate about coding, technology, and innovation.
 - Enjoys problem-solving and working on tech-driven projects.
 - Open to learning new technologies and expanding skill sets.
-
