

Athira K S

Laravel Developer | PHP | MySQL | React

Wayanad, Kerala | athiraks0004@gmail.com | 8590386920 | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

Professional Summary

Results-driven Laravel developer with 3+ years of experience building and shipping full-stack web and mobile applications across multiple industries including e-commerce, event management, real estate, and field services. Comfortable owning features end-to-end — from database design and API development to admin panels and mobile app integration. Quick learner who thrives in Agile teams.

Work Experience

Codenex Web & Mobile App Developers

Dec 2024 – Present

Software Developer

- Develop and maintain web applications using Laravel framework, following clean code and MVC best practices
- Collaborate with designers and mobile developers to implement new features from requirement to deployment
- Conduct code reviews and participate in Agile sprint planning to ensure timely, quality delivery
- Manage source control using Git/GitHub; debug and optimise application performance across projects

Sysitco Technologies Pvt Ltd

Aug 2023 – Dec 2024

Software Developer

- Designed and implemented backend features for client applications using Laravel and PHP, with a focus on reliability and scalability
- Built and maintained RESTful APIs consumed by mobile apps and third-party integrations
- Led debugging and QA efforts, reducing reported bugs through systematic testing before each release
- Collaborated in an Agile team; used Git for version control and code management across sprints

Branding Sparrow Software Solutions Pvt Ltd

Feb 2023 – Aug 2023

Fullstack Developer

- Designed and built web applications using Laravel, with responsive UIs using JavaScript and AJAX
- Troubleshoot implementation issues and debugged builds; worked closely with frontend and backend developers
- Tested functionality for user experience and ensured backend operations met business requirements

Projects

HALA WAGHALA — Event Management Platform

Comprehensive event management platform with mobile app and web admin panel. Features include customisable invitation templates, guest management, SMS invitations with unique QR codes for attendee verification, co-host assignment, photo gallery sharing, digital wallet payments, and coupon management for personal and professional events.

Tech: Laravel, PHP, MySQL, REST API, Mobile Integration, Payment Gateway, QR Code

ZEROZEC — Grocery E-Commerce & Delivery Platform

Full-featured grocery delivery platform with a customer mobile app, admin panel, and delivery partner app. Customer app supports product browsing, order placement, and real-time delivery tracking. Admin panel provides order management with automated sound alerts, inventory control, and pricing tools. Delivery partner app handles order assignment, cart management, and payment integration.

Tech: Laravel, PHP, MySQL, REST API, Firebase Push Notifications, Payment Integration

777 RECOVERY — Vehicle Recovery Service Platform

Vehicle recovery service platform with mobile apps for users and operators. Users submit emergency service requests with location and service type; the system automatically categorises jobs and assigns operators using intelligent route verification. Features real-time updates with photo documentation and push notifications for operator assignments.

Tech: Laravel, PHP, MySQL, REST API, Firebase, Google Maps API, Push Notifications

GRC-KERALA — Real Estate Platform

Real estate website for property buyers and renters with advanced search by location, price range, and property criteria. Includes detailed listing pages with photographs and comprehensive property descriptions to enhance the browsing experience.

Tech: Laravel, PHP, MySQL, JavaScript, AJAX

Skills

Backend: Laravel, PHP, MySQL, REST API Development

Frontend: JavaScript, AJAX, React, GSAP, Three.js

Tools & DevOps: Git, GitHub, Postman, VS Code

Methodologies: Agile / Scrum, Code Review, MVC Architecture
