EXPERIENCE

Hawks Solutions, Kochi - PHP Developer

October 2023 - PRESENT

- Developed and maintained scalable online applications using PHP, CodeIgniter, MySQL, HTML, CSS, JavaScript, jQuery, and Angular.
- Integrated new features per coding standards, improving user experience and increasing system performance by 20%.
- Optimized database queries, reducing response time by 30% and improving overall system efficiency.
- Documented project processes to facilitate workflows, resulting in a 15% reduction in error rates.
- Actively collaborated in team meetings to incorporate emerging technologies and streamline development processes.

PROJECTS

MALWARE DETECTION IN MACHINE LEARNING

- Developed and implemented machine learning algorithms for malware detection, utilizing techniques such as supervised learning, anomaly detection, and feature engineering to identify malicious software behavior.
- Applied deep learning models like Random Forest, Naïve Bayes and Decision Tree to analyze large-scale dataset UCI Machine Learning Repository, improving the accuracy of malware classification and reducing false positives.
- Conducted extensive data preprocessing and feature extraction from raw system logs, network traffic, and executable files to enhance model performance.
- Continuously evaluated model performance using cross-validation achieving a marked increase in detection rates and providing actionable insights for system improvements.
- Front End: Python, Anaconda.

YOUTH CLUB ARCHIEVE

- The youth club's achievements were highlighted in our resume, showcasing a range of community-driven projects completed over the past year.
- With a strong focus on leadership development, our resume illustrates how the youth club has positively impacted local youth.
- Front End: ASP .Net / C# • Back End: MYSQL
