

WORK EXPERIENCE

Frost and Sullivan Pvt Ltd | 2016 – present

Technology Lead, Chennai

- **Web Application Development:** Designed and developed a Laravel-based web application from scratch, featuring a robust admin panel for user and content management.
- **Server Integration:** Configured Nginx and Apache servers on GCP instances, optimizing performance and ensuring reliable deployment of applications.
- **API Integration:** Developed and maintained RESTful APIs to enable seamless communication between the Laravel backend and frontend applications using React.js and Node.js.
- **SSO Implementation:** Implemented Single Sign-On (SSO) using JWT and Laravel Passport, enhancing user authentication and security across the application.
- **Data Manipulation:** Managed data import/export processes, facilitating data manipulation from Excel to UI integration, improving data accessibility for users.
- **Team Leadership:** Mentored junior developers on coding standards, best practices, and efficient design patterns to ensure high-quality deliverables.
- **Internal Content Publishing Tool:** Led the development of an internal content publishing platform tailored for various user roles: Analyst, Project Manager, Editor, and Publisher.
- **Automation of Repetitive Tasks:** Integrated automation tools that minimize repetitive tasks for analysts, such as data gathering and report generation, allowing them to focus on more strategic initiatives.
- **PDF Export Capability:** Added functionality for users to download finalized content as PDFs, streamlining the distribution of reports and presentations.

Infowave Knowledgeware Pvt Ltd | 2014 – 2016

Senior PHP Developer, Chennai

- **Yii Development:** Design, develop, and maintain web applications using the Yii framework, ensuring high performance and responsiveness.
- **Team Leadership:** Organize and lead a development team, fostering collaboration and communication to achieve project goals.
- **Project Coordination:** Work closely with project managers and stakeholders to gather requirements, provide technical insights, and ensure timely delivery.
- **Code Quality:** Conduct code reviews and enforce coding standards to maintain high-quality code and improve team productivity.
- **Mentorship:** Provide guidance and mentorship to junior developers, helping them enhance their technical skills and knowledge.
- **Technical Solutions:** Identify and implement effective technical solutions to complex problems, optimizing application performance.
- **Documentation:** Maintain comprehensive documentation for applications, processes, and technical specifications.
- **Continuous Improvement:** Stay updated on industry trends and best practices, recommending enhancements to processes and technologies.

Bala Subramonian

Technology Lead

ABOUT ME

Dynamic Technical Lead with 14 years of experience in web development, specializing in Laravel, Yii, React, and Node.js. Expertise in designing and implementing RESTful APIs with MySQL and PostgreSQL, driving best practices in software architecture and development. Proven ability to lead cross-functional teams, mentor junior developers, and ensure the successful delivery of high-quality, scalable solutions that align with business goals.

SKILLS

- **Web Development Frameworks:** Laravel, Yii
- **Frontend Technologies:** React, HTML, CSS, Bootstrap, JavaScript, AJAX
- **Backend Development:** Node.js, Core PHP
- **Databases:** MySQL, PostgreSQL
- **API Development:** RESTful APIs
- **Version Control:** GitLab, SVN
- **Operating Systems:** Linux, Ubuntu, Windows
- **Web Servers:** Apache, Nginx
