Senior .NET Full Stack Developer | C#, .NET Core, React, Azure | Microservices

Software Engineer with extensive experience delivering scalable enterprise applications, distributed systems, and cloud-native solutions. Demonstrated strengths in end-to-end product development, system design, and cross-functional collaboration. Proven ability to drive performance optimization, application modernization, and delivery excellence in fast-paced environments. Recognized for problem-solving, technical leadership, and mentoring while contributing to high-availability platforms, process improvements, and business-aligned engineering outcomes across global teams.

CORE SKILLS: Software Development Lifecycle | System Design | Application Architecture | Agile Methodologies | Cross-Functional Collaboration | Distributed Systems | RESTful APIs | Requirement Analysis | Performance Optimization | Scalability Planning | Code Quality Assurance | Container Orchestration | Delivery Management | Risk Mitigation | Technical Leadership | Process Automation | CI/CD Pipelines | Documentation & Standards | Production Support

TECHNICAL KNOWLEDGE

Languages: C#, .NET Core, PHP, Python, Golang, JavaScript

Frontend: React.js, JavaScript, HTML, CSS

Backend / Frameworks: ASP.NET Core Web API, REST Services, Laravel, Symfony

Cloud / Serverless: AWS Lambda, Docker, Kubernetes, Microsoft Azure

Messaging / Event-Driven: Kafka

Databases: MySQL, MSSQL, PostgreSQL, MongoDB

ORM: Entity Framework, EF Core, LINQ

DevOps & CI/CD: Git, GitHub Copilot, Jenkins, Docker pipelines

Other Tools: Linux, REST APIs, MVC, Microservices, Monitoring Tools (Grafana, Retina), Event-driven Architecture, Agile

CAREER HISTORY

Maersk GSC , Bangalore | Senior Software Engineer | Jun 2025 – Dec 2025 (Engagement concluded due to organizational restructuring)

- ✓ Designed and developed RESTful Web APIs using C# and .NET Core.
- ✓ Built microservices-based architecture with Entity Framework and LINQ.
- ✓ Developed responsive front-end components using ReactJS.
- ✓ Containerized services with Docker, streamlining deployments and improving release consistency.
- ✓ Enhanced reliability through robust monitoring, logging, and alerting, reducing production issues.
- ✓ Mentored engineers and led code reviews to uphold high engineering standards and code quality.

Impelsys Pvt. Ltd., Bangalore | Senior Software Engineer | Sep 2022 – Jun 2025

- ✓ Owned full-stack solution development, application architecture, and delivery planning for high-availability platforms.
- ✓ Led end-to-end full stack development using PHP(Symfony), Golang, .NET C#, React.js, and Python.
- ✓ Designed and delivered scalable microservices using Docker
- ✓ Integrated AWS services including SQS, Lambda, and S3.
- ✓ Accelerated release cycles by improving deployment automation and development workflows
- ✓ Delivered scalable backend and frontend solutions aligned with evolving business requirement.

InApp Information Technologies Pvt. Ltd., Trivandrum | Systems Analyst | May 2020 – Sep 2022

- ✓ Improved API efficiency and system responsiveness through performance tuning initiatives.
- ✓ Developed backend services using PHP(Laravel) and frontend components with React.js.
- ✓ Enabled seamless third-party integrations supporting business-critical workflows
- ✓ Strengthened solution stability through testing, security reviews, and quality validation

Luminescent Digital, Trivandrum | Software Engineer | Apr 2016 – Apr 2020

- ✓ Developed modular, maintainable applications following clean coding and testing practices
- ✓ Built backend and frontend solutions using PHP(Laravel), JavaScript, and Vue.js.
- ✓ Practiced test-driven development and delivered clean, modular code.
- ✓ Enhanced delivery quality through close collaboration with cross-functional teams

EDUCATION

M. Tech. - Signal Processing , Rajagiri School of Engineering and Technology, Kochi, 2013

B.Tech - Electronics and Communication Engineering, Government Engineering College Idukki, 2010
