

BRAJENDRA SINGH

Gurugram, Haryana, India | +91-9560078913 | brajendra200@gmail.com

Principal Engineer | AI Integration | Backend Architecture | PHP | Laravel | Node.js | OpenAI

PROFESSIONAL SUMMARY

Team Leader with 12+ years of experience building scalable web applications, backend systems, and AI-powered platforms. Specialized in backend architecture, REST APIs, microservices, and AI integrations using OpenAI/ChatGPT APIs. Hands-on experience developing AI-driven recruitment systems including candidate capability scoring, job matching algorithms, automated resume generation, job description generation, and interview question generation using LLMs. Strong expertise in PHP, Laravel, Node.js, MySQL, AWS, Redis, and scalable queue-based architectures.

CORE SKILLS

Backend Development: PHP, Laravel, CodeIgniter, Core PHP, Node.js

AI & LLM Integration: OpenAI / ChatGPT APIs, Prompt Engineering, AI Resume Generator, AI Job Description Generator, AI Interview Question Generator, Candidate Capability Scoring, AI Job Matching Algorithms

API & Architecture: REST APIs, Microservices Architecture, Webhook Integrations, Background Job Processing, Queue-based Systems

Frontend: React.js, JavaScript, jQuery, AJAX, HTML5, CSS3

Database: MySQL

Search & Performance: SOLR, Redis

Cloud & DevOps: AWS (EC2, S3), Docker, Kubernetes

Integrations: Mailgun Email API, Payment Gateway APIs, SMS APIs, Google Maps API, Highcharts

Tools: Git, SVN, Postman, Jira

PROFESSIONAL EXPERIENCE

TEAM LEAD — SnapFind Network Pvt. Ltd., Gurugram(Dec 2024 — Present)

- Designed and implemented AI-powered recruitment platform features using OpenAI / ChatGPT APIs
- Built AI-based candidate capability scoring engine
- Developed AI job matching system for candidates and job roles
- Implemented AI Resume Generator for automated resume creation
- Built AI Job Description Generator for recruiters
- Developed AI interview question generator based on job descriptions
- Built high-performance email delivery system using Mailgun APIs
- Implemented queue-based bulk email processing architecture
- Developed webhook-based automation system for job status updates
- Designed scalable REST APIs for web applications and third-party integrations

Principal Engineer — Almay Pvt. Ltd., Chandigarh (July 2023 — Oct-24)

- Designed and implemented AI-powered recruitment platform features using OpenAI / ChatGPT APIs
- Built AI-based candidate capability scoring engine
- Developed AI job matching system for candidates and job roles
- Implemented AI Resume Generator for automated resume creation
- Built AI Job Description Generator for recruiters
- Developed AI interview question generator based on job descriptions
- Built high-performance email delivery system using Mailgun APIs
- Implemented queue-based bulk email processing architecture
- Developed webhook-based automation system for job status updates
- Designed scalable REST APIs for web applications and third-party integrations

Module Team Lead — MSAG Skill India LLP, Delhi (Oct 2015 — June 2023)

- Designed and developed large-scale job portals and assessment platforms
- Built Opportunity Management System (OMS) for job and candidate lifecycle management
- Developed online candidate assessment systems

- Implemented job seeker and employer management modules
- Built REST APIs for web and mobile applications
- Managed AWS infrastructure deployment
- Led development teams and architecture planning

Senior Developer — Kartrocket, Gurgaon (Feb 2015 — Sep 2015)

- Developed backend modules for e-commerce platform
- Integrated payment gateways and logistics APIs
- Optimized backend performance and database queries

Senior Developer — Dogspot.in, Gurgaon (Dec 2012 — Feb 2015)

- Developed large-scale e-commerce and community platform
- Implemented SOLR search integration
- Built modules for blogs, Q&A, and community features

Web Developer — SN Tech Solutions Pvt. Ltd., Delhi (Jul 2011 — Dec 2012)

- Developed multiple web applications using PHP, MySQL, and JavaScript

Lecturer — L.B.S.I.M.D.S, Lucknow (Jul 2007 — May 2011)

- Taught programming and computer science courses

KEY AI PROJECT

AI-Powered Recruitment Platform

- **Candidate Capability Scoring using AI**
- **AI Job Matching System**
- **Resume Generator using LLM**
- **Job Description Generator**
- **Interview Question Generator based on JD**

Technology: React.js, Node.js, PHP, MySQL, OpenAI APIs

MAJOR PROJECTS
