

DINESHPANDIAN N

Laravel Developer & Backend Engineer

Coimbatore, India | +91 8754682961 | dineshpandian156@gmail.com
linkedin.com/in/dineshpandian-n-5b8462228/

PROFESSIONAL SUMMARY

Results-driven Laravel Developer with **4+ years of experience** building scalable web applications, high-performance REST APIs, and enterprise backend systems. Proven expertise in Laravel, PHP, MySQL, AWS cloud services, payment gateway integrations, performance optimization, and microservices-based architectures. Experienced in owning complete software development lifecycles, leading technical implementations, and leveraging AI-assisted development tools such as Cursor AI to improve delivery speed and code quality.

CORE SKILLS

Laravel	PHP	Microservices	REST APIs	MySQL
Query Optimization	AWS (EC2/ECS/S3)	Laravel Octane	Caching	API Rate Limiting
Payment Integrations	System Design	Git / Bitbucket	Jira	Agile/Scrum
Cursor AI				

PROFESSIONAL EXPERIENCE

Laravel Developer

Jul 2022 – Present

Mallow Technologies Pvt Ltd · Coimbatore, India

- Led end-to-end backend development for business-critical modules including **wallet management**, vendor onboarding, cab & driver workflows, and payment processing systems.
- Migrated applications from PHP-FPM to **Laravel Octane**, significantly improving application throughput and API response performance while reducing infrastructure utilization.
- Designed and implemented **secure REST APIs** for users, drivers, vendors, and internal systems with role-based authorization and rate limiting.
- Architected **PPI wallet functionality** including balance migration, recharge flow, trip deductions, version handling, and partial payment support.
- Integrated **Razorpay** and **Cashfree** payment gateways with idempotency implementation to prevent duplicate transactions and improve payment reliability.
- Eliminated N+1 query issues, optimized SQL queries, designed database indexes, and performed query analysis using EXPLAIN for large datasets.
- Designed **microservices-oriented solutions** improving modularity, maintainability, scalability, and deployment flexibility across backend services.
- Implemented **caching strategies** to reduce database load and improve API response times for high-traffic endpoints.
- Performed Laravel framework upgrades ensuring backward compatibility and zero production regressions.
- Monitored production systems using **AWS CloudWatch** and supported deployments through AWS infrastructure services.
- Conducted code reviews, mentored junior developers, and enforced coding standards, design patterns, and engineering best practices.
- Leveraged **Cursor AI** for code generation, debugging, refactoring, documentation, and accelerating development workflows.
- Actively participated in sprint planning, story refinement, technical discussions, client communication, and production support.

KEY ACHIEVEMENTS

- Owned and delivered multiple backend modules from requirement analysis to production deployment.
- Improved application performance through Laravel Octane adoption, query optimization, and caching strategies.
- Enhanced payment reliability through idempotent transaction processing across Razorpay and Cashfree integrations.
- Contributed to scalable architecture initiatives that consistently support growing business requirements.

PROJECT EXPERIENCE

Vehicle Rental Application

Laravel Framework

Developed a complete vehicle rental platform with authentication, booking management, vehicle availability tracking, role-based access control, search, filtering, and optimized database schema design. Implemented MVC architecture, RESTful APIs, and Eloquent ORM best practices.

Attendance Management System

PHP & MySQL

Built an employee attendance tracking application with check-in/check-out management, leave tracking, report generation, administrative dashboards, and performance-focused database design.

TECHNICAL SKILLS

Languages	PHP, JavaScript, HTML, CSS
Frameworks	Laravel, Bootstrap, jQuery
Databases	MySQL — Query Optimization, Indexing, Schema Design
APIs & Integrations	REST APIs, Postman, Razorpay, Cashfree
Cloud & DevOps	AWS EC2, ECS, S3, CloudWatch, CodeBuild
Tools	Git, Bitbucket, Jira, Cursor AI
Backend Expertise	Laravel Octane, Caching, Rate Limiting, Performance Optimization, Microservices

EDUCATION

Bachelor of Engineering — Mechanical Engineering

GPA: 7.8 / 10

KGiSL Institute of Technology, Coimbatore · 2022

ADDITIONAL INFORMATION

Languages: Tamil (Advanced), English (Professional Working Proficiency)

Passport: Valid
