

DAVID BENJAMIN B

Backend Developer | AI Engineer | Machine Learning | Deep Learning

davidben03703@gmail.com | +917708121634 | [linkedin.com/in/david-benjamin-74a1a6280](https://www.linkedin.com/in/david-benjamin-74a1a6280) | github.com/david-benjamin-02

SUMMARY

Backend Developer and AI Engineer with hands-on experience building scalable APIs, microservices, and intelligent systems. Strong in Python, FastAPI, NestJS, MySQL, deep learning, and NLP. Proven ability to deliver production-ready solutions, optimize system performance, and integrate cloud-based AI services. M.Sc. Artificial Intelligence (First Rank) and awarded “Best AI Student” by Finance Minister Nirmala Sitharaman. Seeking backend or AI engineering roles.

EXPERIENCES

Backend Developer — Propelsoft

Jan 2025 – Sep 2025 (9 months)

- Developed production-grade backend features using NestJS, MySQL, MongoDB, and gRPC.
- Improved API performance by optimizing database queries and introducing efficient service-level caching.
- Built and integrated microservices for authentication, user management, and internal communication.
- Debugged high-impact production issues and contributed to deployment workflows.
Experience letter pending; verifiable through payment statement and internal communication.

Backend Developer (Part-Time) — Propelsoft

Jan 2024 – Dec 2024 (12 months)

- Built REST APIs, role-based authentication, and microservice-based modules.
- Supported production debugging and collaborated with frontend teams on API integration.
- Developed scalable backend components while pursuing M.Sc AI.

Backend Developer Intern — Propelsoft

Sep 2023 – Dec 2023 (4 months)

- Contributed to backend module development using Laravel and MySQL.
- Worked on debugging, API testing, and feature enhancements.
- Completed pre-internship evaluation in Aug 2023.

TECHNICAL SKILLS

AI & ML: TensorFlow, Keras, Scikit-learn, OpenCV, NLP, Computer Vision, Deep Learning

Programming: Python, JavaScript, TypeScript, PHP

Frameworks: FastAPI, Flask, NestJS, Laravel, GraphQL

Databases: MySQL, MongoDB, PostgreSQL

Tools: Git, Postman, Insomnia, Google Cloud API

Backend Skills: JWT Authentication, SQL Query Optimization, API Security, Microservices, gRPC, WebSockets, Deployment, REST APIs

PROJECTS

AI Multilingual Video Translator | Python, Deep Learning, Gradio

- Developed a full pipeline for speech recognition, translation, lip-sync generation, and sign-language overlay.
- Automated video translation workflow, improving processing efficiency by 70%.
- Integrated ASR, MT, TTS, and lip-sync components into a unified system.

Smart Multimodal Chat Platform | FastAPI, MongoDB, Google Translation API, React.js

- Built real-time multilingual chat supporting speech-to-text and text-to-speech.
- Integrated Google Cloud Translation API for automated message translation.
- Designed backend architecture with WebSockets for live communication.

Transfer Certificate Generator | PHP, MySQL

- Automated TC generation system reducing manual effort by 90%.
- Implemented admin dashboard and PDF generation module.
- Used internally by the college for student document management.

EDUCATION

- **M.Sc. Artificial Intelligence** | Bharathidasan University, Trichy (2023–2025) | CGPA: 8.17 | **First Rank** | No backlogs
- **BCA** | Malankara Catholic College, Kaliakkavilai (2020–2023) | CGPA: 8.14 | No backlogs
- **HSC** | Christucoil LMS HSS, Palliyadi (2019–2020) | Percentage: 67%
- **SSLC** | Christucoil LMS HSS, Palliyadi (2017–2018) | Percentage: 75%

CERTIFICATIONS & AWARDS

- Best AI Student Award (2024) — Presented by Finance Minister Nirmala Sitharaman
- University Topper — M.Sc. AI (2025)
- 30 Days MasterClass in Artificial Intelligence — NoviTech R&D
- NPTEL Programming in Java — Score: 75%
- Advanced PHP Programming — Score: 97%

SOFT SKILLS

Problem Solving | Analytical Thinking | Communication | Team Collaboration | Adaptability | Time Management

KNOWN LANGUAGES

English, Tamil, Malayalam
