PROFESSIONAL SUMMARY

Associate Team Lead with 13+ years of experience in enterprise application development, application support, and technical leadership. Currently leading a team of 5–6 developers/support engineers, overseeing task allocation, code reviews, delivery tracking, production support, and stakeholder communication. Experienced in collaborating directly with clients and business users to gather requirements, resolve critical issues, and ensure successful project delivery.

Strong expertise in PHP, CodeIgniter, MySQL, SQL Server, REST APIs, JavaScript, jQuery, Agile methodologies, SQL optimization, and end-to-end SDLC. Recently gained hands-on experience in React.js, Node.js, and Express.js through self-learning and personal projects. Familiar with REST API development, frontend-backend integration, debugging, and deployment.

Notice Period: Available to join within 2 weeks.
