
DIPAK RATNANI

Senior PHP/Laravel Backend Engineer | AWS • SaaS • REST APIs

Ahmedabad, India | +91-7383718849 | dipakratnani08@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Senior Laravel/PHP Backend Engineer with 10+ years of experience building scalable SaaS platforms, RESTful APIs, CRM systems, and enterprise applications. Expertise in Laravel, PHP, MySQL, backend architecture, API integrations, performance optimization, and AWS cloud deployments. Experienced in leading distributed teams, CI/CD automation, Agile delivery, and designing high-availability systems for global clients across US, Europe, and APAC regions.

TECHNICAL SKILLS

Backend: PHP, Laravel, CodeIgniter, RESTful APIs, API Integrations, MVC Architecture, Microservices, Redis, Queue Management, JWT, OAuth

Frontend: JavaScript, jQuery, AJAX, HTML5, CSS3, Bootstrap, Angular, React.js

Databases: MySQL, MariaDB, MSSQL, Query Optimization

Cloud & DevOps: AWS (EC2, S3, IAM, Lambda, CloudWatch), CI/CD Pipelines, Deployment Automation, Linux, Nginx, Apache

Tools: Git, GitHub, Bitbucket, Jira, Trello, Notion, GitLab

Architecture: System Design, SaaS Architecture, SDLC, Agile/Scrum, Performance Optimization, Team Leadership, Code Reviews

Additional Exposure: Docker

WORK EXPERIENCE

BeyondTech IT Solutions • Global Remote Collaboration • 07/2022 -

05/2026 Lead Backend Engineer / Senior Software Engineer

- Led backend engineering for enterprise SaaS platforms using Laravel, PHP, MySQL, RESTful APIs, and AWS-based deployment environments serving 100K+ monthly users.
- Architected and optimized APIs, improving average response times by 30 % and reducing database load by 20 %.
- Collaborated across time zones with global PM, QA, and product teams to deliver new modules on schedule.
- Mentored 4 + developers through code reviews and design sessions; established internal Laravel best-practice guide.
- Oversaw CI/CD pipelines and deployment automation for multi-client environments.
- Reduced API latency by 30% through API optimization and database query tuning.
- Delivered 12+ major feature releases on schedule within Agile development cycles.
- Improved code review throughput by 40% through streamlined review workflows and mentoring practices.

Agile Infoways Pvt. Ltd. • 10/2016 - 07/2022

Senior Software Engineer / Module Lead

- Designed and delivered CRM and enterprise web applications for clients in US/EU markets.
- Led backend team of 5, developing REST APIs and micro-modules in Laravel / CodeIgniter.

- Re-architected reporting engine to handle 10 × data volume with zero downtime.
- Partnered with clients to translate requirements into scalable technical solutions.
- Conducted technical training reducing new-hire ramp-up time by 35 %.
- Delivered 25+ projects globally
- Reduced server costs by 15% through query optimization.
- Standardized coding guidelines team-wide.

Creole Studios • 05/2015 - 09/2016

PHP Backend Developer

- Built backend APIs and admin panels for global web and mobile apps.
- Developed push-notification system supporting 50 K + mobile users.
- Collaborated with UI/UX team to launch new features and enhance site performance by 25 %.
- Wrote unit tests and documentation to improve release reliability.
- Reduced bug rate 20 %
- Improved API uptime to 99.8 %
- Implemented first continuous testing workflow.

EDUCATION

Bachelor of Computer Application (BCA)

Hemchandracharya North Gujarat University • 01/2012

CERTIFICATIONS

Advanced PHP Course • 01/2015

Tops Technologies Pvt. Ltd.

PROJECTS

Osool — Enterprise Asset Management Platform

BeyondTech IT Solutions

Architected scalable backend modules, RESTful APIs, and database systems for enterprise asset management software supporting multi-region deployments.

BK Management System (BKMS) — CRM Platform

Agile Infoways Pvt. Ltd.

Developed backend architecture, REST APIs, workflow automation, and scalable database operations supporting enterprise business processes.

WhichWich — International Restaurant Platform

Creole Studios

Built backend services, API integrations, and admin tools for international restaurant franchise platforms supporting mobile ordering systems.
