Backend: Laravel, PHP 8+, CodeIgniter, CakePHP, Yii

Database: MySQL, Optimization, Stored Procedures

Cloud: Docker, CI/CD Pipelines, GitHub/GitLab, DO

APIs: REST APIs, JWT, OAuth2, Third-Party Integrations (Stripe, PayPal, UPS, Plivo,

Image Upload libraries, search-as-a-service)

Other: OOP, MVC, Design Patterns, Modular Architecture

Work Experience

Full Stack Lead – Aywa Analytix Pvt. Ltd.

Jun 2021 – Present | ReactJS, Laravel, Docker

- Led end-to-end full-stack development for enterprise and client-facing applications, acting as the primary point of contact for client interactions, requirement gathering, analysis, feasibility studies, technical suggestions, effort estimation, stakeholder approvals and change request (CR) management.

- Planned and executed Agile sprints, managed task boards, allocated work based on skills, conducted code reviews, resolved technical blockers, coordinated with QA for testing and releases, ensured on-time delivery and led a cross-functional team of five members (2 Backend Developers, 1 Mobile Developer, 1 QA Tester, and 1 UI/UX Designer).
- Improved API performance by 40% through Redis caching and query optimization, implemented CI/CD automation using Envoy, migrated legacy PHP systems to Laravel for scalability and maintainability and delivered Automotive & Transportation domain solutions including vehicle movement services and reporting modules for a UK-based client.

Senior Backend Engineer – Flavor PTE. LTD.

Feb 2021 – Jun 2021 | CodeIgniter, MySQL

- Optimized heavy SQL processes reducing execution time by 30–45%.
- Strengthened API security with robust authentication and validation layers.
- Developed and maintained Singapore government-engaged educational platforms using CodeIgniter, HTML, CSS, JavaScript, jQuery, Bootstrap, and AJAX, supporting multiple user roles, educational products, enrollments, timesheets, online classes, attendance tracking, online/offline examinations, course evaluations, and certification workflows for education service contractors..

Software Engineer – Aarav Info Solutions Pvt. Ltd.

Apr 2020 – Feb 2021 | Laravel, ReactJS

- Built reusable React component architecture improving productivity by 25%.
- Developed scalable Laravel modules reused across multiple platforms.
- Served as a Senior Software Developer, leading and managing multiple modules of a US-based KPO and BPO application, including lead management systems, using Laravel, Blade templating, and PLivo integrations.

Lead Full Stack Developer – Tech Extensor

Jul 2019 – Apr 2020

- Owned complete SDLC including requirement analysis, architecture, and delivery.
- Improved system performance and reduced load time by 50% through DB optimization.
- Worked on Healthcare and Automotive domain projects for US-based clients, developing scalable applications using Laravel and ReactJS.

Software Developer – IT Path Solutions Pvt. Ltd.

Oct 2016 – Jul 2019

- Developed high-availability REST APIs (99% uptime).
- Integrated UPS workflows and trained junior developers.
- Built an ERP-cum-CRM product for the Photo Library domain with large enterprise and custom modules, integrating UPS tracking, photo creation workflows, inventory, stock

management, and customer order processing for a US-based client, while mentoring a team of two developers.

PHP Developer – Nivida Web Solutions

Jan 2016 – Sep 2016

- Worked as a PHP OpenCart Developer, delivering fully customized and performance-optimized e-commerce platforms for US-based clients having address and payment based fully customized modules.

PHP Developer – NETMAHAVIR

Aug 2015 – Dec 2015

- Worked as a Core PHP Developer, building small to mid-scale enterprise websites and interactive web portals using Core PHP, MySQL, HTML, CSS, JavaScript, jQuery, and AJAX.

Education

M.Sc. (Information Technology) – KSKVKU, Bhuj (2013)

B.Sc. (Computer Application & IT) – HNGU, Patan (2010)
