PROFESSIONAL SUMMARY

Laravel Developer with 3.6 years of experience in building web applications using PHP, Laravel, and MySQL. Skilled in RESTful APIs, MVC architecture, and integrating third-party services. Proficient in HTML, CSS, JavaScript, AJAX, and Git. Experienced with Laravel Passport, role-based access, and working in Agile environments. Focused on clean, secure, and maintainable code.

SKILLS

- **Laravel & PHP** – Core backend framework and language for building scalable web applications.
- **RESTful APIs** – Essential for mobile app support and frontend-backend communication.
- **MySQL** – Widely used database for Laravel projects, including query optimization.
- **JavaScript** – Enables dynamic and interactive frontend behavior.
- **Git** – Crucial for version control and collaboration in any modern development workflow.

EDUCATION

MCA with AI (Pursuing)

AMRITA UNIVERSITY

BSc Computer Science (2017-2020)

UNIVERSITY OF KERALA

FREELANCE PROJECTS

Media Academy Website

Developed a dynamic Laravel-based website for a media academy with course listings, user registration, and admin dashboard.

Career Guidance Website

Built a Laravel-based website for showcasing career resources, user registration, and admin management.

EXPERIENCE

LARAVEL FULL STACK DEVELOPER, (FEB 2024 - JUL 2025) DDD KING NETLINE PVT LTD

Vythiri, Wayanad

- Built and maintained RESTful APIs for mobile apps, including payment gateway and WhatsApp API integration.
- Developed dynamic, responsive frontends with JavaScript, enhancing user experience and interactivity.
- Handled Excel data extraction and third-party integrations for automation and reporting.
- Wrote clean, modular Laravel code, ensuring performance, security, and long-term maintainability.

LARAVEL BACKEND DEVELOPER, (JUN 2022 - JUN 2023) THENALIL VENTURES PVT LTD

Mavelikkara, Alappuzha

- Developed and maintained backend logic for dynamic web applications using Laravel, focusing on clean and scalable code.
- Built and integrated secure RESTful APIs to support frontend modules and third-party systems.
- Handled user authentication, input validation, and complex business workflows.
- Collaborated with frontend developers to ensure seamless data flow and optimized application performance.

LARAVEL FULL STACK DEVELOPER, (MAR 2022 - JUN 2022) ROYAL MAGNETO ENTERPRISES LLP

Thiruvananthapuram

- Supported and maintained APIs for 3 mobile applications, ensuring high performance and uptime.
- Developed and managed a real-time admin dashboard for monitoring and backend operations.
- Collaborated with mobile teams to fix bugs, add features, and optimize API performance and compatibility.

LARAVEL FULLSTACK DEVELOPER, AUDIT GEAR (NOV 2021 - MAR 2022) Kalamassery, Kochi

- Developed and customized ERP software modules (finance, inventory, and HR).
- Managed both backend (Laravel) and frontend (Blade, JS, CSS) to deliver end-to-end features.
- Implemented data validation, reporting features, and role-based access controls.
