Phone: 8072891948

PROFESSIONAL SUMMARY

Software Developer with nearly 3 years of experience specializing in the Drupal ecosystem and PHP-based web solutions. Proven expertise in building scalable, high-performance websites using Drupal 9, 10, and 11, with a focus on component-based architecture and custom module development. Adept at integrating AI-driven platforms and E-commerce functionalities while maintaining strict web standards and security protocols.

SKILLS

Drupal Ecosystem: Expert in Drupal 7, 8, 9, 10, and 11; proficient in version upgrades, core/contrib updates, and Drush for site administration.

Module & Backend: Custom module development, hooks, and service integration; strong proficiency in PHP and the LAMP stack.

Frontend & Design: HTML, CSS, Twig templating, SCSS-driven styling, and Bootstrap-based responsive theming; experienced in Radix component-based architecture.

API & Security: Integration of RESTful APIs with authentication via HMAC, OAuth, and SSL-based security practices.

DevOps & Workflow: Professional experience with **DDEV** for local environments; advanced **Git** workflows (branching/deployment) and **Composer**.

Project Leadership: Collaborative experience with QA and Design teams to plan milestones and deliver scalable, business-aligned solutions.

OPEN SOURCE CONTRIBUTIONS

- **Project Maintainer – Height Equalizer:** Developed and published a contributed module on Drupal.org to manage equal element heights via data attributes.

EXPERIENCE

Power CMS Technology, Trivandrum — Drupal Developer

October 2023 – Present

- **Knowledge Avatars(<https://knowledgeavatars.ai/>):** Maintaining an AI-driven platform by implementing custom modules and an affiliate marketing system for avatar products. I engineered customizable avatars for AI chatbots via RESTful API integrations and optimized Drupal Commerce workflows. Managed ongoing site stability, security updates, and performance enhancements.
- **Intact Insurance (Multi-Domain)(<https://www.intactinsurance.ie/> / <https://www.intactinsuranceni.com/>):** Lead developer for a Drupal 10 multi-domain site (IE/NI) using an Emulsify-based component architecture. I engineered custom claim forms with domain-specific configurations and automated mail triggers for localized processing. Managed the full rebranding and site stability while ensuring consistent performance across both regional domains.
- **World Vision Ireland(www.worldvision.ie):** Architected a Drupal 10 platform using Radix component-based theming and SCSS. I developed complex Views listing pages and custom Twig templates to deliver a seamless user interface.
- **Nu Vagor Eko UK(www.nuvagoreko.co.uk):** Independently architected and delivered this Drupal 11 platform from development to deployment. I executed the full frontend using Radix component-based theming and handled all backend configurations, including product listing Views.
- **Nine4Seven / Power CMS(www.nine4sevenengineers.com)/(www.powercms.co.uk):** Developed corporate Drupal 9 sites featuring custom content types and responsive Bootstrap-based layouts.

EDUCATION

B.E. in Mechanical Engineering

Mar Ephraem College of Engineering and Technology

GRADUATED - 2022

CGPA: 7.7

DECLARATION

I, Ebi John Peter, solemnly affirm that all the information provided above is true to the best of my knowledge.
