Professional Summary

Passionate Software Engineer with 7+ years of experience in full stack development. Specialized in building scalable web applications using **Laravel**, **Vue.js**, **Nuxt.js**, **MySQL**, **Docker**, and modern frontend/backend frameworks. Skilled in designing secure APIs, optimizing system performance, and collaborating in Agile teams. Seeking to contribute expertise as a **Senior Laravel Developer**.

Professional Experience

Software Engineer

Oct 2020 – Present

On EM Softtech LLP, Kochi, Kerala

- Led development of an **E-commerce Platform** using **Laravel**, **Vue.js**, **Nuxt.js**, **Tailwind CSS**, **MySQL**, **Docker**, integrating automated product data scraping and deploying with multi-container Docker Compose setup (Superadmin, Admin, API Gateway, Microservices, UI Services).
- Built scalable backend APIs in Laravel, implemented authentication and security best practices, and optimized database queries for performance.
- Delivered Shopify projects with custom checkout flows, product recommendations, and subscription services using **Shopify API**, **Node.js**, **Laravel**.
- Developed StreamVPN management system (billing + API integrations) using **Yii2 (PHP 8.2)**, **MySQL**, ensuring secure payments and automated notifications.
- Created membership management system (Re-member App) with **Yii2 (PHP 8.3)**, implementing advanced search, filtering, and database schema design.
- Contributed to hospital management system (Core Schedule) with payroll and scheduling features using **Yii1**, **SQL**, **JavaScript**.
- Collaborated in Agile environment, conducted code reviews, and documented systems for long-term maintainability.

Full Stack Developer

Aug 2019 – Oct 2020

Riosis (Innovation Hub) Pvt. Ltd., Kochi, Kerala

- Developed scalable web applications using **Vue.js**, **Nuxt.js**, and PHP frameworks similar to Laravel.
- Designed RESTful APIs, implemented ORM-based database communication, and optimized system architecture for scalability.
- Ensured maintainability by focusing on clean coding standards, testing, and performance improvements.

Junior Software Developer

Jun 2018 – Aug 2019

Ridhitech India Pvt. Ltd., Kochi, Kerala

- Built web applications with CodeIgniter and AdminLTE templates.
- Designed APIs, applied MVC architecture, and delivered user-friendly interfaces.

Education

M.Sc. Electronics CUSAT, Kochi, Kerala	2016 – 2018 CGPA: 7.53
B.Sc. Electronics MG University, Kottayam, Kerala	2013 – 2016 CCPA: 8.18
12th Grade (Kerala State Education Board) GHSS Kudamaloor, Kerala	2013 66.75%
10th Grade (Kerala State Education Board) St. John's HS Kanjirathanam, Kerala 78.89%	2010

Technical Skills

Languages: PHP, JavaScript, HTML5, CSS3, Rust
Frameworks: Laravel, Yii, CodeIgniter 3, Vue.js, Nuxt.js, Node.js, Tailwind CSS
Databases: MySQL, SQL Server, Redis
Tools: Docker, Shopify API, Git, Linux, Windows
Practices: Agile/Scrum, Secure Coding, API Development, CI/CD

Academic Projects

IoT Based Patient Monitoring System (M.Sc.) – Built PHP web application with real-time health monitoring.
Mini CNC Plotter Machine (M.Sc.) – Developed Arduino-based CNC plotter for G-code image plotting.
Solar Powered Smart Traffic Control System (B.Sc.) – Designed ARM LPC2138-based traffic controller with ambulance/VIP priority.

Languages

English (IELTS 7.0), Malayalam, Hindi
