

Favas C.K

Senior Full Stack Software Engineer – Laravel — PHP — React
Malappuram, Kerala
favas.ck253@gmail.com — +91 8089803714

Professional Summary

Senior Full-Stack Software Engineer with 9 years of experience building scalable web applications, SaaS platforms, and enterprise systems using Laravel, PHP, and JavaScript, with recent hands-on experience in React. Strong expertise in designing RESTful APIs, developing dynamic user interfaces, and implementing efficient frontend-backend integrations. Proven ability in performance optimization through database indexing, query optimization, caching strategies, and code-level improvements to enhance system scalability and response time. Experienced in AWS deployment, microservices architecture, and delivering high-performance, reliable software solutions aligned with business goals.

Technical Skills

Backend: Laravel, PHP, Node.js, Express.js

Frontend: JavaScript, React.js, Livewire, jQuery, HTML5, CSS3, Tailwind CSS

Databases: MySQL, PostgreSQL, MongoDB

DevOps: AWS, Docker, Kubernetes

Architecture: REST APIs, Microservices, MVC

Tools: Git, Jira, Agile, Postman, Swagger

Testing & Deployment: Unit Testing (Codeception), CI/CD Pipelines, Debugging

AI Tools: GitHub Copilot, Cursor, Claude

Professional Experience

Senior Software Engineer
Pearlsoft Technologies

Dec 2023 – Present

- Designed and developed scalable full-stack applications and RESTful APIs using Laravel for enterprise CRM systems.
- Built dynamic and responsive user interfaces using React, improving usability and user engagement.
- Designed API architectures and integrated frontend components with backend services ensuring seamless data flow.
- Managed API gateway integrations enabling efficient communication across microservices.
- Implemented caching strategies and database indexing techniques to improve system performance and scalability.
- Optimized MySQL queries and backend services, significantly improving response time and reducing load.
- Led migration of legacy ERP order processing modules to modern Laravel architecture.
- Developed HRMS backend services including payroll, attendance tracking, and employee lifecycle management.
- Integrated Metabase analytics platform for real-time dashboards and business insights.
- Developed APIs and frontend integrations supporting order management and operational workflows.
- Ensured system reliability by diagnosing and resolving complex production issues.
- Collaborated with cross-functional teams and stakeholders to align development with business requirements.

- Maintained code quality through structured testing, code reviews, and Agile development practices.

Senior Software Engineer

Jun 2022 – Oct 2023

Ateam Infosoft Solutions Pvt Ltd

- Built scalable full-stack e-commerce platform using Laravel and PHP.
- Designed and developed RESTful APIs supporting web and mobile applications.
- Implemented secure Stripe payment gateway integration for subscription billing.
- Developed SEO analytics dashboards and performance monitoring tools.
- Built shopping cart, order management, and notification systems for digital commerce workflows.
- Optimized backend processes and database queries to improve application efficiency.
- Collaborated with product teams to deliver scalable and user-centric features.

Web Application Developer

Aug 2020 – Jun 2022

Mcware Technologies LLP

- Developed cloud-based Pharmacy POS platform using Laravel serving 50+ outlets.
- Implemented real-time inventory synchronization reducing stock discrepancies by 35%.
- Built vendor management systems and automated procurement workflows.
- Designed operational dashboards for business monitoring and reporting.
- Ensured system stability and handled production issue resolution.

Web Application Developer

Oct 2019 – Jul 2020

Promena LLP

- Developed secure REST APIs supporting mobile applications with 10,000+ users.
- Optimized database queries reducing API response time by 40%.
- Contributed to development of multi-vendor marketplace platform.
- Improved system performance through query tuning and backend optimizations.

Web Application Developer

Sep 2016 – Sep 2019

Moonstone Solutions

- Developed enterprise web applications using CodeIgniter and Core PHP.
- Assisted in building backend modules and maintaining legacy systems.
- Supported debugging, testing, and deployment of applications.

Education

Master of Computer Applications (MCA)

Calicut University – 2015

Bachelor of Science in Information Technology

Calicut University – 2011
