

FAIZAN AALAM

Senior Full-Stack Engineer

f24aalam@gmail.com | Hyderabad, India | [linkedin.com/in/f24aalam](https://www.linkedin.com/in/f24aalam) | github.com/f24aalam

SUMMARY

Senior Full-Stack Engineer with 8+ years of experience building scalable SaaS platforms and multi-tenant architectures. Specializes in API-first systems, white-label B2B platforms, and backend systems at scale. Experienced in performance optimization, system modernization, and integrating AI into production applications.

CORE EXPERTISE

- SaaS & Multi-Tenant Architecture
- System Design & Architecture
- API-First & Backend Systems
- B2B Platforms & E-Commerce Systems
- Performance Optimization & System Modernization
- AI Integration in Applications
- Cloud & DevOps Practices

EXPERIENCE

Senior Software Engineer — Bacancy Technology (Dec 2024 – Present)

- Built scalable backend services and APIs for telemedicine platform
- Designed partner APIs and expanded ecosystem integrations
- Introduced new partner model for infrastructure-free telehealth
- Worked on multi-tenant architecture
- Built referral and loyalty systems

Software Engineer — Kitomba (Aug 2022 – Dec 2024)

- Migrated desktop system to SaaS platform
- Refactored systems and added new features
- Worked on multi-tenant SaaS product
- Managed CI/CD and deployments

Software Engineer — Ranium Systems (Jun 2020 – Aug 2022)

- Built backend services and APIs
- Integrated payment systems
- Optimized performance and database queries

Software Engineer — Ambiot Infotech (Dec 2019 – May 2020)

- Led small team and delivered B2C e-commerce platform
- Owned end-to-end development and releases

Co-Founder & Developer — NagpurStudents (Oct 2015 – Jul 2017)

- Built platform serving 50,000+ users
- Handled full-stack development and product direction

PROJECTS

- AI-Powered Chat Platform — Multi-provider AI, RAG, structured workflows
- MCP Server — Secure AI-driven database querying using connection identifiers
- Multi-Tenant B2B Platform — White-label SaaS with tenant isolation and custom workflows

TECH STACK

Backend: PHP, Node.js | AI & CLI: Go, Python | Frontend: React, Vue.js | Databases: MySQL, MariaDB, SQLite | Cloud: AWS, Docker, CI/CD | Practices: System Design, Multi-tenancy, AI Integration, MCP, Design Patterns, OOP

EDUCATION

B.E., Computer Science & Engineering — Nagpur University
Diploma, Computer Engineering — Government Polytechnic, Arvi

CERTIFICATIONS

- JavaScript Algorithms and Data Structures
- Backend Development and APIs
