2022 - PRESENT

Full stack developer

- Develop and execute comprehensive marketing strategies and campaigns that align with the company's goals and objectives.
- Lead, mentor, and manage a high-performing marketing team, fostering a collaborative and results-driven work environment.
- Monitor brand consistency across marketing channels and materials.

PROJECT SUMMARY

MLM Software Solution

Role: Lead PHP Developer

Technologies: PHP, Laravel, MySQL, jQuery, Bootstrap, Cron Jobs

Description:

Developed a custom MLM (Multi-Level Marketing) platform supporting multiple compensation plans such as Binary, Matrix, and Unilevel. Built modules for user registration, referral tracking, commission calculation, wallet management, and payout processing.

E-commerce Platform

Role: Full-Stack Developer & Team Lead

Technologies: PHP (CodeIgniter), MySQL, AJAX, Bootstrap, Razorpay/PayPal API

Description:

Designed and implemented a complete e-commerce website with features like product catalog, cart, checkout, order tracking, and admin panel.

CRM for Small Businesses

Role: Team Lead & Developer

Technologies: PHP, Laravel, PostgreSQL, JavaScript

Description:

Developed a lightweight CRM solution for managing leads, customer interactions, task assignments, and sales pipelines for SMEs.
