📍 Ranchi, Jharkhand, India

Professional Summary

Results-driven IT professional with over 13 years of experience in software development, technical leadership, and full-stack engineering. Strong expertise in PHP (Laravel, CodeIgniter), RESTful APIs, MySQL, and frontend frameworks like Vue.js. Skilled in architecting scalable, secure web applications, optimizing performance, and integrating modern DevOps practices. Recently expanded skillset with a certificate in Generative AI, showcasing a proactive mindset toward emerging technologies and innovation.

Core Skills

Backend: PHP, Laravel, CodeIgniter, Python

Frontend: Vue.js, JavaScript, jQuery, HTML, CSS

Database: MySQL, MariaDB, Cassandra

DevOps & Tools: Docker, Git, GitHub, Postman, Apache, Nginx, CI/CD Pipelines

Architecture: REST APIs, LAMP, WAMP, Containerization

Others Skills: Web Security (OWASP), Performance Optimization, Agile Methodologies

Professional Experience

Tech Lead

Celestial System Pvt. Ltd. | Ranchi, Jharkhand

Sep 2022 – Aug 2023

- Led a team of 10–15 developers for PHP and MySQL-based web applications.
- Designed scalable architectures using Docker and improved system resilience.
- Integrated Cassandra for high-volume data handling, enhancing performance.
- Drove full-cycle development and ensured on-time project delivery.

Senior Software Engineer

CSC e-Governance Services India Ltd. | Ranchi, Jharkhand

Jun 2021 – Apr 2022

- Built reusable components in PHP (CodeIgniter 4) and Vue.js.
- Developed APIs and billing modules for digitalseva.csc.gov.in.
- Led a development team across multiple government digital initiatives.

Senior Administrator (Developer Role)

Wipro Technologies | New Delhi, Delhi

Oct 2018 – Sep 2020

- Migrated core systems from PHP 5.6 to PHP 8 for modernization.
- Automated QA workflows and deployed apps on the MeghRaj cloud.
- Maintained strict adherence to OWASP standards.

Senior Software Developer (Consultant via Vendors)

Ministry of External Affairs / Home Affairs | New Delhi, Delhi

Sep 2011 – Oct 2018

- Developed secured systems like ITEC, File Management System, SPDC, and many more.
- Acted as a full-stack developer with secure deployment on MeghRaj.
- Collaborated with vendors including Silver Touch, IAP, CyberQ, and Velocis Technology.

Executive Associate – IT

BSES Rajdhani Power | New Delhi, Delhi

Jun 2010 – Aug 2011

- Supported SAP-ISU (CCS) and internal MIS systems.
- Managed Data Center operations and coordinated IT support.

Education

Master of Computer Applications (MCA)

Birla Institute of Technology, Ranchi – 2006 – 2009

Bachelor of Science in Computer Applications

Ranchi University – 2001 – 2004

Certifications

Generative AI Foundations Certificate – upGrad (2025)

Explored prompt engineering, LLMs, image generation, and responsible AI deployment. Gained practical understanding of how GenAI transforms content creation and software development workflows.

Achievements

- **Special Recognition Award – Wipro Technologies (2019 Q1)**
Recognized for significant contributions to NIC project and government cloud implementation.
