PROFESSIONAL SUMMARY

Laravel Backend Developer with 2 years of experience in building scalable RESTful APIs, secure authentication systems, and multi-tenant applications using Laravel, PHP, and PostgreSQL. Skilled in backend architecture, database optimization, API integration, and Ubuntu server deployment. Proven ability to deliver secure, high-quality, and maintainable solutions in collaborative development environments. Certified in PHP Full Stack and Laravel Development.

PROFESSIONAL EXPERIENCE

LARAVEL DEVELOPER

Milestone Innovative Technologies, Chavakkad | Oct 2023 – Present

(Career Break: Approved Maternity Leave: Dec 2024 – Aug 2025)

- Designed and maintained scalable RESTful APIs using Laravel with modular, best-practice architecture
- Implemented multi-tenant systems with dynamic database switching and automated DB creation via Laravel Artisan commands
- Developed secure authentication and authorization systems using custom middleware, token-based authentication concepts, and role-based access control.
- Designed a custom user identification mechanism integrated with global middleware to secure API endpoints
- Managed backend deployments on Ubuntu VPS (Hostinger and Bluehost) including domain and SSL configuration
- Developed dynamic forms and integrated multi-language support for improved user interaction
- Coordinated API integration and testing with QA and frontend teams across multiple environments

Software Developer

Wallpost Software | Smart Management IT Solution, Doha, Qatar | 2022 – 2023

- Developed client-facing software using Yii Framework with MySQL and PHP for backend functionality
- Implemented new features and debugged existing functionality using Vue.js, jQuery, and JavaScript
- Collaborated in a 25-member agile team, managing tasks and sprints using Jira

TECHNICAL SKILLS

Backend:	Laravel, PHP, Yii Framework, RESTful API Development, PostgreSQL, MySQL
Authentication:	Access Tokens, Refresh Tokens, Session Management, Multi-Tenant Architecture
DevOps & Hosting:	Ubuntu VPS, Hostinger, Bluehost, Domain & SSL Configuration, AWS
Tools:	Postman, Git, Tortoise Git, Jira, Artisan CLI
Frontend:	HTML, JavaScript, Vue.js, jQuery
Other:	Aspect-Oriented Programming (AOP), Multi-language Support, Dynamic Forms

PROJECTS

Danabooks Accounting Software

Milestone Innovative Technologies | Laravel, API Integration, PostgreSQL

- Developed and maintained backend modules and RESTful APIs for an accounting platform.
- Implemented API integrations and optimized financial data processing workflows.

Eclectic Online Exam App

Milestone Innovative Technologies | PHP, MySQL, Web App

- Developed an online examination platform with admin controls for exam management and user portals for test participation.
- Implemented automated result generation and performance reporting features.

Project & Brokerage Management System

Milestone Innovative Technologies | Laravel, PostgreSQL

- Developed modules for project tracking, task management, and brokerage commission automation.
- Resolved critical production issues and implemented new business features.

Web Application for Mahal (Mosque Manager)

Milestone Innovative Technologies | PHP, Full-Stack

- Built a web application to streamline administrative and community management operations.
- Implemented user management, reporting, and notification features.

Android Event Scheduler / Reminder

Academic Project — BSc Computer Science | Android, Java

- Android application to help users schedule and track occasions and errands with timely notifications.

EDUCATION

- **BSc Computer Science | 2014 – 2017**

Bachelor's Degree in Computer Science

- **PHP Full Stack Development** — Certificate Course, 2020
- **PHP Laravel Development** — Certificate Course, 2023
