Summary

Full-stack web developer with 3+ years of professional experience in designing, developing, and deploying web applications using Laravel, Yii, and API integrations. Adept at creating scalable, high-performance applications for enterprise solutions. Proven expertise in construction management systems (COMS, PMS), API-driven ecosystems, and database optimization. Strong problem-solver with a passion for clean, maintainable code and a track record of delivering end-to-end products. Collaborative team player experienced in agile development, mentoring juniors, and driving projects from concept to deployment.

Experience

Web Developer – Blue Horizon InfoTech, Kochi (Feb 2024 – Present)

- Developed and optimized key modules in **COMS (Cost Management System)** and **PMS (Project Management System)**.
- Designed and maintained **Global Apps API** ensuring cross-platform data synchronization.
- Optimized **database queries and codebase** for improved scalability and response times.
- Collaborated with cross-functional teams to deliver **high-quality construction-based applications**.
- Contributed to **code reviews, documentation, and mentoring junior developers**.
- Actively participated in **Agile/Scrum ceremonies**, contributing to sprint planning, retrospectives, and backlog refinement.
- Designed dynamic reports such as Expense, cash flow, sales reports etc.
- Reduced **system downtime** by implementing proactive monitoring and bug-fix strategies.

Web Developer – Infoniz Technologies Pvt Ltd (Dec 2021 – 2024)

- Designed and developed **two live commercial web products** from scratch to deployment.
- Architected scalable solutions using **modular, reusable components**.
- Improved product reliability by introducing **unit testing & CI/CD pipelines**.
- Significantly improved SEO scores via **structured data, meta optimization, and content tuning**.
- Boosted **user engagement and conversion rates** through performance enhancements.
- Collaborated closely with clients to gather requirements and deliver **tailored solutions**.
- Leveraged Git for version control, managing code repositories, and facilitating collaborative development
- Integrated **third-party APIs** such as **PayUMoney** for secure payment processing, enhancing product functionality and user trust.

IT Trainer – Edusense Technologies (Sep 2020 – Sep 2021)

- Conducted **hands-on training sessions** in web technologies (HTML, CSS, JavaScript, PHP, Python).
- Guided students in **real-time projects**, improving their coding confidence.
- Mentored learners on **best practices in software development & version control (Git)**.
