PROFESSIONAL SUMMARY

Lead Full Stack Developer with 5+ years of experience delivering end-to-end systems, including HRMS, CRM, ERP-like platforms, and automation dashboards. Strong expertise in backend systems, APIs, integrations, and database design with hands-on experience in PHP, Laravel, Python, and JavaScript.

Proven ability to own complete system lifecycle — from requirement analysis to deployment and optimization. Experienced in building scalable architectures, integrating third-party services, and developing reporting solutions.

PROFESSIONAL EXPERIENCE

Full Stack Laravel Developer – Doodle Technology, Abu Dhabi, UAE | Nov 2025 – Present

- Leading development of full-stack web and mobile applications, ensuring scalable and maintainable architecture
- Designed and implemented API-driven backend systems using Laravel, supporting seamless frontend and mobile integration
- Integrated multiple third-party services and APIs, improving system connectivity and business workflows
- Developed data dashboards and reporting modules, enabling real-time business insights
- Contributed to system architecture decisions, performance optimization, and production stability

Senior PHP Developer – Sans IT Consultancy, Cochin, Kerala | Nov 2021 – Nov 2025

- Delivered end-to-end HRMS, CRM, and ERP-like systems from requirement analysis to production deployment
- Designed and developed Core PHP (MVC) backend architecture, including database schema and business logic
- Built modules for employee management, payroll processing, and ticketing systems, automating key operations
- Developed analytics dashboard using Python, analyzing client ticket trends and feedback for decision-making
- Implemented REST APIs and third-party integrations, enabling seamless data exchange across systems
- Automated workflows using cron jobs, reducing manual effort and improving efficiency
- Managed production deployments, bug fixing, and system maintenance, ensuring stable releases

PHP Developer – MNF Infrastructure Pvt. Ltd., Ernakulam, Kerala | Jan 2020 – Jan 2021

- Developed **internal ERP-like systems** for HR and operational management
- Built modules for **attendance, payroll, and reporting**, improving organizational workflow efficiency
- Translated business requirements into **functional system features and database structures**
- Collaborated with stakeholders to deliver **customized solutions aligned with business needs**

SKILLS

- **Backend:** Core PHP (MVC), Laravel, Python (Automation & Data Processing)
- **Frontend:** JavaScript, jQuery, React (Basic)
- **Databases:** MySQL, PostgreSQL
- **APIs & Integrations:** REST APIs, Payment Gateways, Third-party Integrations
- **Systems:** HRMS, CRM, ERP-like Platforms
- **Reporting & Analytics:** Power BI, Dashboard Development
- **Tools:** Git, CI/CD, Postman
- **Concepts:** System Design, Architecture, Automation, Performance Optimization

EDUCATION

- **Master of Computer Applications (MCA)**, University of Calicut, 2019
- **Bachelor of Science in Computer Science (BSc)**, University of Calicut, 2015

CERTIFICATIONS

- Data Science and Machine Learning Certification – IIIT Kottayam, Kerala
- Certified PHP Laravel Developer
- Java Programming Certification

PROJECTS

HRMS & ERP System

- Tech Stack: Core PHP (MVC), MySQL, JavaScript
- Built complete HR system including payroll, attendance, leave, reporting
- Automated workflows using cron jobs
- Ownership: Full system lifecycle (design → development → deployment)

Client Communication & Analytics Dashboard

- Tech Stack: Python, SQL, Power BI
- Developed dashboard to analyze:
 - Client ticket trends
 - Feedback analysis (+ve / -ve)
- Enabled data-driven decision-making

Payment Integration System

- Tech Stack: Laravel, REST APIs
- Implemented secure payment workflows using token-based authentication
- Generated unique access links for seamless user experience

Online Exam Portal

- Built scalable system with real-time result processing and analytics
