

JISHNU PT

Software Developer

Professional Summary

Software developer with proven expertise in PHP, JavaScript, jQuery, and SQL, delivering robust web applications and dynamic user interfaces. Skilled in full-stack development, database management, and optimizing web solutions for performance and scalability. Experienced in designing and implementing complex systems, debugging code, and ensuring seamless user experiences. Adept at collaborating with cross-functional teams to translate business requirements into technical solutions. Eager to leverage technical skills and innovative thinking to contribute to high-impact projects in a dynamic environment. Eager to learn and work with modern PHP frameworks and new technologies.

Work History

Nucore Software Solutions – Software Developer

Calicut, IN

12/2023 – Ongoing

- **Company Overview:** Product-based Company providing specialized travel accounting solutions through its flagship product, **TRAACS**, a comprehensive software used by travel agencies for financial management and reporting.
- Gained in-depth expertise in **PHP, JavaScript, jQuery, PostgreSQL and Zend Framework** by working on complex, large-scale web applications and enhancing critical modules.
- **Developed and implemented** numerous customer-specific modules, improving product usability and meeting 100% of client requirements, by gathering client requirements and translating them into robust, scalable solutions.
- Collaborated with cross-functional teams (QA, product managers, and designers) to ensure seamless integration of new features and timely delivery of updates.
- Worked on **bug fixing and performance optimization**, addressing both logical and programmatic issues to improve overall system efficiency and user experience.
- Played a key role in **database optimization**, ensuring efficient data retrieval and reducing query execution times through proper indexing and query restructuring.
- Enhanced the **user interface** by implementing dynamic and interactive front-end features using **jQuery** and **JavaScript**, improving user engagement and satisfaction.
- Maintained code quality by adhering to **coding standards**, conducting peer reviews, and ensuring proper documentation of all development activities.

Technical Skills

- **Web Development:**
PHP, JavaScript, JQuery, AJAX
- **Databases:**
PgSQL, MySQL
- **Tools:**
VS Code, Postman, Linux
- **Other:**
Python, Data Analytics, Machine learning

Soft Skills

- Problem Solving
- Collaborating
- Analytical Thinking
- Communication Skills

Learning Goals

- Modern PHP Frameworks
- Modern Frontend development tools
- API Development tools
- Cloud technologies
- Enhance problem solving and algorithmic thinking
- Modern database solutions

Accomplishments

- Successfully transitioned from a **1-month external internship** at **Softroniccs** into a full-time software developer role by demonstrating strong technical skills in **PHP** and **JavaScript**.
- Completed a **3-month intensive training** program at **Nucore Software Solutions**, acquiring advanced proficiency in **PHP**, **SQL**, and **JavaScript**, as well as hands-on experience in the company's flagship product, **TRAACS**.
- Played a key role in the **PostgreSQL database migration and optimization** and **PHP version 7.4 upgradation**, ensuring seamless data transition and improved performance in critical modules.
- Contributed to the development and delivery of **new modules and customer-specific features**, enhancing the product's functionality and meeting client requirements.
- Gained experience in **bug identification and resolution**, improving application stability by addressing logical and programmatic issues in both the back-end and front-end.
- Collaborated with senior developers to improve the performance of web applications by optimizing code and database queries.
- Consistently met project deadlines while maintaining high-quality code and adhering to company standards.
- Developed completed **electronic invoice system** for Jordan government side reporting for one of our clients.

Education

04/2023
University Of Calicut
Thenjippalam, IN
Master of Science: Computer Science

04/2021
EMEA College Of Arts and Science
Kondotty, IN
Bachelor of Science: Computer Science

Certifications

- 11/2023 – 12/2023
Specialized Internship In PHP, SQL, JQuery
- 10/2021 – 03/2022
Certified Specialist in Data Science and Analytics
