

JOBIN BENNY

Software Engineer | TYPO3 & Full Stack Developer | 4+ Years Experience

Kannur, Kerala, India 670650 | +91 8921156020 | jobinbenny55@gmail.com | linkedin.com/in/jobinbenny-114b3616b

PROFESSIONAL SUMMARY

Results-driven Software Engineer with 4+ years of experience specializing in TYPO3 CMS development, PHP/Laravel, and React.js, following Agile/Scrum methodologies. Proven track record delivering 20+ enterprise web projects including CMS upgrades, custom extension development, content migration, and full-stack applications. Experienced with RESTful APIs, CI/CD workflows, and version-controlled deployments via Git. Zend Certified PHP Engineer with strong focus on scalable architecture, code quality, and continuous improvement.

TECHNICAL SKILLS

- **CMS:** TYPO3 (Extbase, Fluid, MASK, Data Handler API, Plugins, Content Blocks)
- **Backend:** PHP, Laravel, Symfony, Node.js, Express.js
- **Frontend:** React.js (React 18), JavaScript, HTML5, CSS3, Bootstrap 5, React Bootstrap
- **State & Routing:** React Router, Axios, Context API
- **Databases:** MySQL, PostgreSQL
- **DevOps & CI/CD:** Git, GitHub, GitHub Actions, CI/CD Pipelines, Docker, DDEV, Azure DevOps, Kubernetes
- **Architecture:** MVC, Headless CMS, Modular Component Architecture, RESTful APIs, OAuth2
- **Integrations:** SAP Integration, CORS Middleware, TYPO3 Headless API
- **Methodologies:** Agile, Scrum, TDD
- **Cloud & Tools:** AWS (familiar), Laravel Artisan, Blade Templates, Selenium WebDriver
- **Testing:** PHPUnit, PHPStan, Psalm, JUnit, Functional Testing, Automated Regression Testing, SonarQube

CERTIFICATIONS

Zend Certified PHP Engineer | Zend by Perforce

WORK EXPERIENCE

Software Engineer | PIT Solutions PVT LTD

02/2022 – Present | Thiruvananthapuram, India

- Spearheaded development and delivery of 20+ high-quality web applications using TYPO3 CMS, PHP, Laravel, React.js, and Node.js, improving client engagement and operational efficiency by 30%.
- Designed and implemented custom TYPO3 extensions, plugins, and content elements with Extbase, Fluid, and MASK, enhancing application functionality by 25%.
- Led multiple TYPO3 version upgrades and executed seamless content migrations from legacy systems via Data Handler API, achieving 100% data integrity and reducing downtime by 40%.
- Developed responsive, dynamic user interfaces with React.js, integrating TYPO3 Headless APIs to enhance user experience and scalability, increasing user retention rates by 20%.
- Architected and maintained Laravel-based applications adhering to MVC architecture and RESTful API standards, optimizing backend performance and improving reliability by 35%.
- Managed database design, optimization, and administration using MySQL and PostgreSQL, accelerating data retrieval speeds by 80% while ensuring robust data security.
- Conducted comprehensive unit and functional testing with PHPUnit and other frameworks, maintaining a code quality score above 85% and reducing production bugs by 50%.
- Implemented performance optimization strategies and SEO best practices, boosting web application load speeds and search engine rankings by 80%.
- Collaborated with cross-functional teams to gather client requirements, resolve bugs, and deliver high-impact solutions aligning with business goals.

Automation Testing Intern | CalibreCode Solutions

06/2018 – 07/2018 | Bangalore, India

- Developed and executed automated test scripts using Selenium WebDriver and JUnit, reducing manual testing time by 20%.
- Implemented automated regression testing procedures, validating critical functionalities and contributing to software release stability.
- Collaborated with cross-functional teams to identify and resolve defects; prepared documentation for test scripts, plans, and results.

KEY PROJECTS

Looping Group — Multi-Site TYPO3 CMS Platform

- Managed 14+ domains on a single TYPO3 installation; oversaw multi-site configuration, shared infrastructure, and coordinated Agile sprint-based delivery.
- Developed and maintained News plugins and custom plugin types; implemented Content Blocks feature for structured, reusable content definitions.
- Integrated Aseptio cookie consent solution, ensuring full GDPR compliance across all domains.
- Delivered ongoing TYPO3 version upgrades, performed bug fixes from client-raised tickets, and maintained CI/CD-compatible deployment workflows.

Technologies: *TYPO3, PHP, Extbase, Fluid, Content Blocks, Aseptio, MySQL, Git, CI/CD*

Younity.com — Enterprise TYPO3 Upgrade & Extension Development

- Upgraded website to the latest TYPO3 version; developed and managed dynamic content using MASK content elements.
- Designed and implemented custom TYPO3 plugins to meet specific business requirements, improving backend flexibility.

Technologies: *TYPO3, PHP, Extbase, Fluid, MASK, MySQL, RESTful APIs*

Jaeggihafter / Eberhard.ch / Bin.ch / Cyclinfo.ch / Zetlab.ch — TYPO3 Upgrades & Migrations

- Led full TYPO3 core upgrades across 5 client sites, resolving extension, template, and plugin compatibility issues with minimal downtime.
- Executed structured content migrations from legacy systems; performed post-upgrade validation ensuring data integrity.
- Refactored and modernized custom plugins to latest TYPO3 standards; improved backend editor experience and site performance.

Technologies: *TYPO3, PHP, Extbase, Fluid, MySQL, Git*

MSTA — Scalable Backend Development & DevOps Integration in Symfony

- Developed a scalable API application using Symfony with a modular and maintainable architecture.
- Implemented database management using Doctrine ORM with PostgreSQL, including migrations and schema design.
- Containerized the application using Docker and DDEV, ensuring consistent local development environments.
- Designed and maintained CI/CD pipelines in Azure DevOps, including automated testing, SonarQube code quality checks, and Docker build/deploy workflows.
- Configured environment management using Symfony configuration system and .env files for multiple environments.
- Improved performance using Mutagen and optimized file synchronization strategies for faster development workflows.
- Wrote unit tests using PHPUnit and enforced code quality using PHPStan and Psalm.
- Integrated OAuth2-based authentication for secure API access and user management.
- Deployed and managed the application in Kubernetes using custom manifests for scalability and reliability.

Technologies: *Symfony, PHP, Doctrine ORM, PostgreSQL, Docker, DDEV, Azure DevOps, Kubernetes, PHPUnit, PHPStan, Psalm, OAuth2*

TYPO3 React Connector — Headless E-commerce Frontend Integration

- Developed a scalable headless frontend application using React 18 to consume RESTful APIs and decouple the presentation layer from the TYPO3 backend.
- Built a dynamic routing and content rendering system to seamlessly map TYPO3 backend layouts and content elements to modular React components.
- Implemented a complete e-commerce product catalog and checkout flow, managing state for product details, carts, and SAP-integrated order confirmations.
- Configured a custom Node.js and Express proxy middleware to safely handle API routing, circumvent CORS policies, and manage backend traffic.
- Designed responsive and accessible interface components utilizing Bootstrap 5, React Bootstrap, and custom CSS for an optimized cross-device experience.
- Managed asynchronous API integrations and client-side data fetching using Axios, complete with robust loading states and error handling.
- Structured a highly modular component architecture prioritizing reusability, maintainability, and clean code principles.

Technologies: *React 18, Node.js, Express.js, React Router, Axios, Bootstrap 5, TYPO3, SAP Integration, HTML5, CSS3*

EDUCATION

Bachelor of Technology – Computer Science Engineering

CGPA: 6.0

Alva's Institute of Engineering and Technology, Mangalore | Visvesvaraya Technological University | 08/2016 – 08/2020

Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems, Software Engineering, Operating Systems, Computer Networks

12th – Biology Science (78%)

ST Cornelius HSS Kolayad, Kannur, Kerala | 06/2014 – 06/2016

CORE COMPETENCIES

- Problem Solving
- Team Collaboration
- Communication
- Leadership
- Creativity
- Decision Making
- Cross-functional Teamwork
