

JOSEPH SAVIN D'CRUZ

FULL STACK DEVELOPER

 +91 9995313738

 savindcruz@gmail.com

 Edapally, Kochi, India

 /in/savin-dcruz

SKILLS

- Full-Stack Web Development
- Code structure and architecture
- Agile Workflow
- Object-oriented programming
- Code Versioning
- Web performance optimization
- Team Management
- Troubleshooting skills

PROGRAMMING SKILLS

- PHP / MYSQL
- React JS / Mongo DB
- Wordpress
- Codeigniter / CakePHP / Laravel
- Symfony / Zend
- Javascript
- HTML5 / CSS3
- Bootstrap
- jQuery
- Tailwind CSS

PROFILE

Experienced Web Developer with extensive server-side web development knowledge gathered across 14+ years in the industry. Well-versed in Front-End development. Strong creative and analytical skills. Team player with an eye for detail. Proficient in designing, developing, and optimizing web applications to ensure seamless user experiences. Adept at troubleshooting complex issues, improving performance, and implementing scalable solutions. Passionate about staying updated with the latest web technologies and industry best practices. Skilled in collaborating with cross-functional teams to deliver high-quality projects on time.

EXPERIENCE

SENIOR PHP FULLSTACK DEVELOPER

BEO Software Private Limited, India

2023 - Present

- Designed and maintained full-stack web applications utilizing PHP frameworks (Zend, Symfony) and React.js for a road construction company based in Germany.
- Design and implement RESTful APIs and integrate third-party services.
- Work with MySQL database, writing efficient queries and managing migrations.
- Improved systems with addition of new features and infrastructure.
- Develop reusable components and manage state using React (MobX, Context API).
- Use Git for version control and manage CI/CD pipelines for deployment.
- Collaborated closely with a team of five developers to ensure smooth development and deployment.
- Work within Agile methodologies, managing tasks and sprints using tools like Jira and Asana.

EDUCATION

MASTER OF COMPUTER APPLICATIONS

IGNOU University

2014 - 2016

- Implemented continuous integration and deployment strategies for faster release cycles and improved application reliability.
- Reviewed code to validate structures, assess security and verify browser, device and operating system compatibility.

TEAM LEAD

ALT-D Technologies LLP, India

2012 - 2023

- Utilized advanced web development technologies, including React, MongoDB, PHP, MySQL, TypeScript, Bootstrap, CSS, and HTML.
- Optimized web service APIs for improved response times, resulting in superior application usability across mobile devices and desktops alike.
- Partnered with end users to define project requirements, strategy, and execution plans for creating new WordPress pages and updating existing ones.
- Led a development team of four, providing guidance and technical oversight.
- Managed project workflows using Jira and Asana for requirement gathering, and utilized GitHub and GitLab for version control.
- Worked closely with development teams to identify and resolve issues while executing comprehensive test scenarios.
- Enhanced system performance with thorough code reviews, debugging, and optimization techniques.
- Developed detailed system documentation and presentations for training purposes.
- Served as an Integration Engineer at *Findify By Maropost*, an e-commerce platform.
