CERTIFICATION

Azure Developer Associate
Certification No : 2CT5CD-6F91F6
Earned on: September 25, 2025

CORE SKILLS

BACKEND ENGINEERING

- PHP Laravel, CodeIgnitor, Node
- REST APIs
- Queue Systems
- Async Processing
- Redis
- Microservices
- Docker & Containerization
- Scalable Backend Systems
- Performance Optimization
- Deployment planning

DATABASES

- MySQL
- PostgreSQL
- MongoDB
- VectorDB (PGVector)
- Redis (Caching)
- Query Optimization
- Database Design
- Indexing
- Performance Tuning

AI & MODERN DEVELOPMENT

- OpenAI APIs Integration
- Google Vision API(OCR)
- Vector Embeddings (PGVector)
- Prompt Engineering
- RAG Fundamentals
- AI Workflows
- Python FastAPI
- LangChain Basics
- AI-Assisted Development
- Github Copilot, Claude and Codex in Editor

PROFESSIONAL SUMMARY

Senior Software Engineer with 10+ years of experience building scalable backend systems, APIs, and digital platforms across multiple business domains. Strong expertise in PHP, Laravel, REST APIs, third-party integrations, asynchronous processing, and performance optimization. Experienced in solving complex business problems through scalable architecture, system design, workflow automation, and backend engineering best practices.

Currently expanding expertise in AI-enabled development, FastAPI, RAG systems, and modern AI application workflows. Passionate about building reliable systems, optimizing performance, and delivering impactful digital solutions with a product-focused mindset.

“Open to Project Management, Lead Backend Engineer, Solution Architecture, and AI-Enabled Product Development opportunities.”

PROFESSIONAL EXPERIENCE

SENIOR SOFTWARE ENGINEER

Simform Solution Pvt Ltd, Ahmedabad, India

March 2024 - Present

Responsibilities & Contributions

- Designed and developed scalable backend systems using PHP and Laravel.
- Delivered enterprise-grade APIs and integrated third-party solutions.
- Led database query optimization and application workflow enhancements for performance improvements.
- Contributed to system architecture discussions and backend scalability strategies.
- Implemented queue-based asynchronous processing solutions.
- Developed AI-powered integrations using Google OCR and OpenAI APIs to enhance automation.
- Innovated AI-assisted development workflows and modern engineering practices.

Tech stack

PHP • Laravel • Node • PostgreSQL • MySQL • Redis • REST APIs • Docker • Git
• Linux • Cloud Services • OpenAI Integration • Google Vision API

Soft skill

Project Management • Team Collaboration • Solution architecture • Client management

CLOUD & DEVOPS

- AWS Hands-on experience
- Azure Hands-on experience
- Docker and DockerHub
- Git Versioning
- CI/CD
- Linux

MONITORING & LOGGING

- AWS Cloudwatch
- Azure Log Stream & Storage Logs
- Sentry

OTHER SOFT SKILLS

- Project Management
- Team Collaboration
- Client Management
- System Architecture planning
- Technical Problem Solving
- Product Thinking

EDUCATION

Master of computer application

L.J.Institute Of Computer Applicaton, India

2014 - 2016

CGPA: 7.4

Bachelor of computer application

Lokmanya College Of Computer Apps

2011 - 2014

CGPA: 6.5

SELF EMPLOYED / TECHNICAL LEAD

Jaraware Infosoft LLP, Ahmedabad, India

May 2021 - March 2024

Responsibilities & Contributions

- Led end-to-end development and delivery of digital products and business solutions.
- Managed backend architecture, client requirements, and technical implementation.
- Built scalable web applications, APIs, and mobile-integrated systems.
- Delivered solutions across multiple industries with a focus on performance and usability.
- Maintained awareness of competitive market trends, business expansion opportunities, and industry developments.

Tech stack

PHP, Laravel • CodeIgniter • Node • MySQL • Postgress • APIs • Cloud Services • Third-Party integration

Soft skill

Project Management • Team Collaboration • Solution architecture • Client management

SENIOR SOFTWARE ENGINEER

Brainvire Infotech Pvt Ltd, Ahmedabad, India

September 2019 – May 2021

Responsibilities & Contributions

- Specialized in developing PHP web applications with Laravel Framework and Lumen APIs.
- Focused on core backend development tasks.
- Managed both frontend and backend development responsibilities.
- Integrated third-party APIs and payment gateways into PHP-based systems.

Tech stack

PHP • Laravel • Lumen • REST APIs • MySQL • Third-party Apis

SOFTWARE ENGINEER

Mxi Coders Pvt Ltd, Ahmedabad, India

May 2017 - August 2019

Responsibilities & Contributions

- PHP Development (CodeIgniter & Laravel) - Developed and maintained web applications, business logic, and RESTful APIs using PHP frameworks.
- NodeJS Development (ExpressJS) - Developed REST APIs and backend services using NodeJS and ExpressJS.
- Frontend Development (Angular) - Developed responsive and high-performance frontend applications using Angular Collaborated closely with backend tea

Tech stack

PHP • Laravel • CodeIgniter • NodeJS • ExpressJS • Angular • REST APIs, MySQL • JavaScript • Blockchain • Third-Party Integrations
